

GALVESTON AGAIN SWEEP BY STORM

Terrific Hurricane Bursts on City and Does Some Damage to Property.

NO LIVES LOST IS THE LATE REPORT

Earlier Information Gave Rise to Fears of a Big Disaster.

Houston, Texas, July 21.—A wire was secured into Galveston at 1 o'clock this afternoon. At that hour the Galveston-Tribune wired the Houston Chronicle as follows: "The storm at Galveston blew down Murdoch's bathing pavilion and the old fishing pier at Twentieth street. Fifty feet of the railroad bridge was knocked out by a barge. The wind blew seventy miles an hour but has nearly subsided. No lives were lost. "The Mallory line steamer left Galveston for New York at noon today."

AN ALARMING REPORT.

Dallas, Texas, July 21.—A message received here from Galveston before the last wire was lost stated that the western part of the city was under seven feet of water; that two spans of the railroad bridge connecting Galveston island with the mainland were damaged, and water was flowing a foot over the sea wall. The wind was blowing sixty-five miles an hour.

SOME DETAILS REACH HOUSTON.

Houston, Texas, July 21.—Sensational reports of a storm of hurricane proportions at Galveston have reached here over a telephone line. All other wires are reported down. Two bathing pavilions are said to have been wrecked and Bettinson's fishing piers were swept away. The surf is jumping over the sea wall in several places. The wind has reached a velocity of sixty miles an hour.

A fishing sloop, hurled by the wind, broke through the center of the bridge between the mainland and Galveston, destroying all communication and severing connection with the main shore. The reported destruction of the bathing piers is believed here to be exaggerated although the waves are breaking over the large sea wall erected by the United States government and water is flying in sheets over the speedway and pleasure parks of the island. Waves twenty feet high washed the floors of the bathing pavilions that remain and inhabitants have hunted the few high spots in the city. The last report from Galveston indicated a wind velocity of 65 miles an hour and a barometer of 29.7. The barometer at the time of the great storm several years ago registered 27.5.

CLOUDBURST CAUSE OF GREAT HAVOC IN WISCONSIN

Half a Million Dollar Loss in Northern Part of the State.

Milwaukee, Wis., July 21.—An Evening Wisconsin special from Ashland, Wis., says a cloudburst late last night caused \$500,000 loss of property in northern Wisconsin. The power plant at White River was washed out completely. The plant furnished the power and light to the city of Ashland and the loss is estimated at \$100,000.

The state fish hatchery near Bafeld was nearly washed away and the millions of fish carried into the lake. The loss to the state will be heavy, as the ponds appear to be destroyed. The Northwestern Wisconsin Central, Northern Pacific and Omaha trains are all held up and no trains can get into Ashland for many days. The river valley was raging flood over which the trains dare not attempt to pass. Railroad and wagon bridges for miles around are down.

The dam breaking at "White River" imperils Oshkosh and the people there have been warned to leave their homes.

FLOODS IN MINNESOTA.

Twin Valley, Minn., July 21.—Heavy rains have overflowed Wild Rice river and March creek, entirely submerging the village of Heiberg, two miles north of here. No Northern Pacific trains are running to Winnipeg.

TARIFF TINKERS TO MEET TAFT TONIGHT

Dinner at White House is Designed to Bring on Harmony.

LEADERS HOPE TO REPORT PROGRESS

Review of the Situation as It Now is in the Conference.

Washington, July 21.—Determined to present to President Taft tonight a program for the settlement of the dispute over raw materials, or at least to define the issues so sharply that the executive may be put in a position to weigh the merits of the contending points, the tariff conferees today took up in earnest the five big subjects that had been held in abeyance by the attitude of the administration.

An Unenviable Position.

The conferees were said to realize that their position would be unenviable if they were to go to the white house dinner tonight and report that they had been unable to reach an agreement on iron ore, lumber, oil, hides and coal and that they could offer no basis for an adjustment of any of these problems. From reports that had reached the capitol it was said that the president had not been successful in getting sufficient votes to put hides or coal on the free list and that the inclusion of free coal and hides in the conference report would result in its rejection by the senate. Senator Aldrich is believed to have told the president as much yesterday.

Payne is an Obstacle.

The only obstacle in the way of a compromise report putting iron ore and oil on the free list and making reductions in the duties on coal, hides and lumber was believed to be Representative Payne. If he should refuse to sign a report none could be made. If he expects the placing of hides on the free list and the adoption of a reciprocal provision, which would mean free entry of coal from Canada as the price of his signature, the senate conferees say there is no possibility of an agreement.

Iron ore was talked over when the conferees met today. This is one of the subjects on the administration program on which it was expected that the senate would have to yield. Senator Burrows took a strong stand against placing iron ore on the free list and a long discussion followed. It was apparent that a majority of the conferees would be willing to have this article free.

Would Like to Show Progress.

It was expected that all would be put on the free list. The fight for a countervailing duty was carried on in the senate under the leadership of Senator Curtis, but he announced to some of the conferees that in view of President Taft's statement, he would withdraw from the fight. The conferees believed that if they could go to the president's dinner tonight with the statement that they had been able to agree to the proposition that oil and iron ore should be free, it could not be charged that no progress had been made with the latest task imposed on them by the executive.

WILL MAKE ATTEMPT TO START CARS LATE TODAY

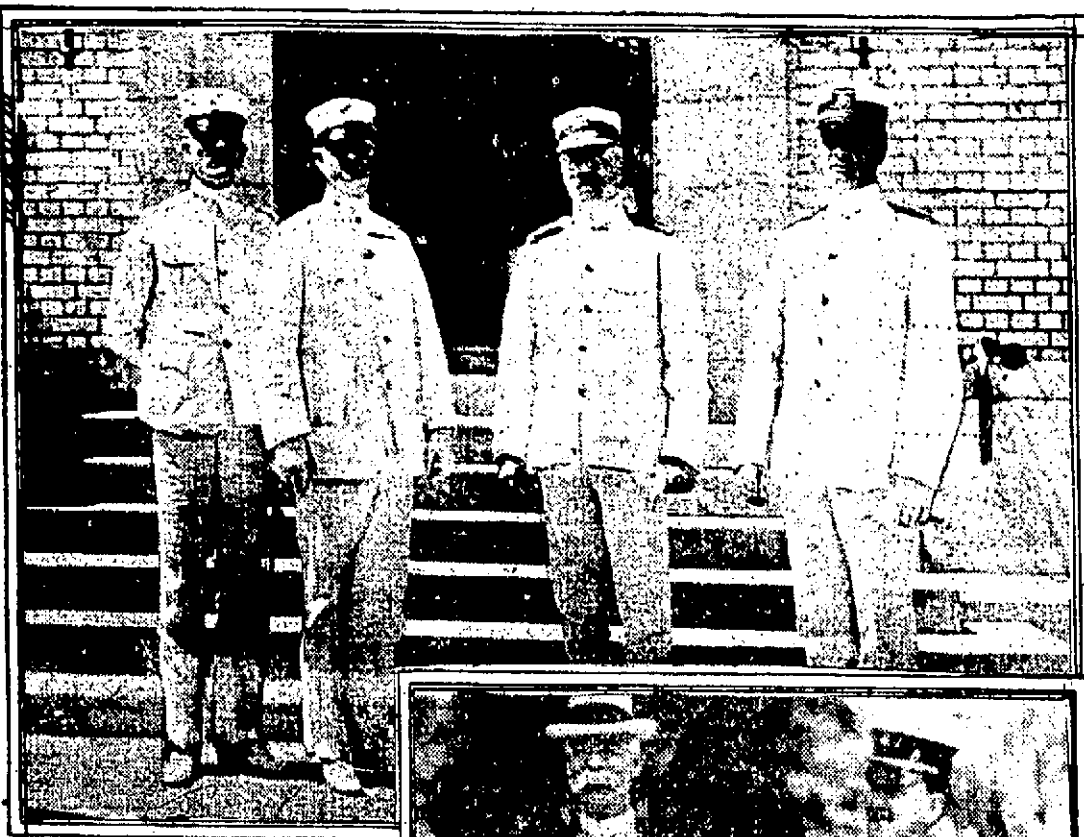

Toledo and Chicago Line Secures Some New Men in Fort Wayne.

Announcement is made that late this afternoon an attempt will be made to start cars on the Toledo and Chicago interurban line, breaking the strike which has tied up the road from Fort Wayne northward completely since midnight Sunday night. The company asserts that it has secured new men from Chicago and Fort Wayne to man the cars, and that the full schedule of cars will shortly be in operation.

Citizens of Kendallville, through a committee composed of Mayor Graves, Archy Campbell and Isaac Kann, made an attempt at intervention Tuesday evening, hoping to bring the company and its striking workmen together in an agreement that would end the trouble. This was ineffectual. General Manager Purinton declining to employ the striking trainmen under any circumstances. Later the men who left their cars Sunday night walked into the company's general offices at Kendallville, surrendered their keys, punches and other property of the company and accepted their pay checks terminating their service with the company.

The strike has been a big handicap to the United States Express company in Kendallville, for the interurban is the only outlet of that company there. The agent has been utilizing an automobile to transport express, between the Kendallville offices and the Baltimore and Ohio trains at Afton. Out of Fort Wayne the United States company has been handling its business this week over the Ohio Electric lines to reach the Baltimore and Ohio railroad at Deshler, O. Instead of Garrett as under the regular service.

NO SPECIAL MEET OF LEGISLATURE

Will Not be Called to Ratify the Income Tax Amendment.

NO AUTHORITY FOR IT SAYS GOVERNOR

Marshall Fears Session May Have Bad Results in Some Directions.

Indianapolis, July 21.—According to a statement made today by Governor Marshall the general assembly of Indiana will not be called in a special session to ratify the action of congress in providing for an amendment to the federal constitution on which to base the enactment of the income tax measure.

In saying that he would not summon the general assembly, the governor explained that his decision did not mean that he was opposed to an income tax as such, but that the constitution of the state did not provide that he could call the assembly for a specific purpose, and that he did not wish to get the lawmakers together and subject the state to the industrial dangers which inevitably follow calling special sessions.

Has No Authority.

"Under the constitution," said the governor, "I have no authority to call a special session for any specific purpose, the constitution providing merely that I may call a special session. If I could call the assembly to consider only the ratification, I might issue a call, but since under the constitution the assembly could remain in session forty days and work on any measure that might be introduced, even to the detriment of business and the disturbance of industrial conditions, I do not wish to subject the state to the effects which might readily come. Such a special session could be made to cost \$100,000 and I do not propose to throw open the treasury doors for the use of that amount."

Economy Would Be Better. "In my opinion it would be better for the lawmakers of the federal gov-

TAKING TESTIMONY IN PANAMA CANAL LIBEL SUIT

Rogatory Commission from United States Busy in Paris.

Paris, July 21.—The Rogatory Panama canal commission, composed of Henry A. Wise, United States attorney at New York, and Stuart McNamara, assistant United States attorney for the District of Columbia, has begun the taking of testimony of voluntary witnesses in a room at the American embassy, which was placed at its disposal by Ambassador White. The commission came to Paris early this month to obtain testimony in the Panama libel cases.

By an agreement between counsel of both sides the sittings are in secret and no statement regarding the nature of the evidence submitted can be secured for publication. Beyond this voluntary testimony nothing is likely to be obtained, as the idea of appealing to the French government for an examination of the records has been practically abandoned.

BANKER SAYLER'S SLAYER INDICTED

True Bills Against Dr. Miller for Murder of Crescent City, Ill., Man.

WIDOW OF SLAIN MAN ALSO INDICTED

A Bill Found Against Her Father—Important Evidence Found.

Watska, Ill., July 21.—Dr. W. L. Miller, charged with the murder of J. B. Sayler, the Crescent City banker, was indicted today by a special grand jury. Indictments also were returned against other prisoners held as accessories. It is reported that one witness testified that he saw Ira Grunden, brother of Mrs. Sayler, place a hatchet beside the body of Dr. Miller's defense is that he fired only when attacked by Mr. Sayler with a hatchet.

Nine witnesses were examined yesterday. Their testimony had to do with the facts immediately after the tragedy. Today witnesses will be introduced to show the relationship between Mrs. Sayler and Dr. W. L. Miller for months preceding the tragedy. The state has two volunteer witnesses whose names are being kept secret. They will, it is said, give some very important and damaging testimony, among other things that Mrs. Sayler and Miller were seen to go bathing together frequently.

The state claims that it has broken down the claim of self defense and will be able to prove that the murder was the result of a conspiracy between Dr. Miller, Mrs. Sayler and her father, John Grunden.

Three True Bills Expected. It was stated this morning that three true bills will be found against Miller, Mrs. Sayler and John Grunden and an untrue bill against Ira Grunden.

The state asserts that it has found one bit of damaging evidence at Danville against John Grunden. This is to the effect that on the day before he left the soldiers' home he told a comrade that "things are in a hell of a muddle at Crescent City and I am going there to straighten them out." The state claims that he secured the revolver at the home and remarked as he placed it in his pocket, "I may need this."

TURNERS TO HAVE ELECTION.

The annual election of officers of the Turnverein Vorwaerts will be held this evening at the Turner hall. A large attendance is expected.

MAKING AN EFFORT TO END GREAT STRIKE

McKees Rocks Trouble May Soon Lift—Worse at Butler, Pa.

Pittsburg, July 21.—At the instance of Judge Marshall Brown of the county court a private conference of attorneys representing the Pressed Steel Car company, the strikers and Public Defense association, is being held here today for the purpose of reaching some conclusion that may settle the strike.

But little progress has been made in the Pittsburg district by either side in the strike of the Amalgamated Iron, Sheet and Tin Workers against the "open shop" policies of the American Sheet and Tinplate company. Since the strike was inaugurated on July 1 the company has opened a number of its plants, but in most instances these forces are small.

Disorder at New Castle. The only place where there has been disorder is at New Castle, where 125 alleged strike breakers were attacked on their way to the mill yesterday. In the riot following one man was seriously injured and a number of arrests were made. The situation at New Castle today was reported quiet.

At New Kensington three of the fifteen mills are in operation. Sheriff

INJUNCTION IS OUT AGAINST ELWOOD STRIKERS

Federal Judge Baker Issues Order Restraining the Tinplate Men.

Goshen, Ind., July 21.—A restraining order against the striking employees of the American Steel and Tin Plate company interfering with the operation of its plant at Elwood, Ind., was issued today by Judge Baker, of the United States circuit court, sitting in this city. The defendants are members of the Amalgamated Association of Iron, Steel and Tinplate Workers. They are enjoined from picketing the Elwood plant and from attempting to force the non-union workmen from taking employment in it.

SHED MORE LIGHT ON DRUNKEN ORGY

Death of Lieutenant Sutton Was Suicide Say the Witnesses.

MARINE CORPSE MAN HAD BEEN BEATEN

Two Men Were Atop of Him When Lieut. Bevan Got on the Ground.

Annapolis, Md., July 21.—Lieutenant William F. Bevan, of the marine corps resumed his testimony today when the court of inquiry continued the investigation into the death of former Lieutenant James N. Sutton, of Portland, Oregon, who was shot and killed on the marine barracks grounds on the night of October 12, 1907. Henry E. Davis, counsel for Mrs. James Sutton, the dead lieutenant's mother, said he would subject Lieutenant Bevan to a lengthy cross examination.

Bevan's graphic story yesterday of the incidents leading up to Sutton's death varied in many essential points from the testimony of Lieutenants Adams and Osterman, all of whom were present and testified they saw Sutton fall himself. According to Bevan there were three men either sitting upon or holding young Sutton down when he freed an arm and shot himself.

Thinks Son Was Beaten to Death.

Sutton's mother in view of this part of Bevan's testimony last night again expressed her belief that her son was beaten to death in the quarrel with the officers, and the bullet wound in his head afterward inflicted. Major Henry Leonard, who is conducting the inquiry for the government, had a long conference last night at Carvel hall with Mrs. Sutton and her daughter, Mrs. Hugh Parker. It was said afterward that the conference might lead to an unexpected turn in the investigation. Nothing has been heard here by the naval authorities of Lieutenant Edward P. Roelker, the much-wanted witness, although it was reported yesterday he had been found.

It is not thought likely that Miss Margaret Stewart, of Pittsburg, the girl who spent the evening with Lieutenant Sutton before his death, will be called as a witness. Lawyer Davis said today he had not heard from Miss Stewart's father who went to Canada to see her and endeavor to persuade her to return here and testify.

Bevan Resumes Story.

Major Leonard continued his examination of Lieut. Bevan. "You were testifying yesterday about the night of Sutton's death," said the major. "Could you tell just what every one had on?"

The witness said it was too dark to distinguish the clothes worn by some of those present.

Major Leonard asked Lieutenant Bevan if he knew of threats against the lives of any officers in camp or attempts on Sutton's part to shoot up camp.

Mr. Davis objected to the question as irrelevant.

"If any officers should be subsequently charged with causing Sutton's death," said Major Leonard, "any testimony which would tend to show a motive would be material. If such an officer had caused his death through a deep sense of fear and in an effort to protect his own life, such testimony would be very material."

All the lawyers took a hand in arguing the question and the court ruled that it should be allowed.

The witness said he did not recall ever hearing Lieutenant Sutton threaten to take the life of any one in camp. He related the occasion of Sutton's shooting up camp as told previously by Lieutenants Adams and Osterman. Had a Pair of Guns.

Referring to the incident in camp just previous to the shooting when Bevan, as officer of the guard, found Sutton confronting Lieutenant Roelker with two revolvers pointed at Roelker's feet, Major Leonard asked the

AVIATORS IN RUSH TO FLY ENGLISH CHANNEL

Several on the Ground at Calais—Latham Will Try Again.

Calais, July 21.—M. Bleriot, the French aeronaut, arrived here today with his monoplane. He announces that he will make a trial flight tonight and possibly make an attempt to cross the English channel tomorrow. Count De Lambert also planned to begin a series of trials with his aeroplane today at Wissant. The feverish haste of his rivals has induced Herbert Latham, the aviator who made a daring but unsuccessful attempt to cross the channel on Monday, to hasten to prepare his new machine, which is already on the way here from Chalons. Bleriot's monoplane is of the Latham type but is the smallest flying machine yet built. It is fitted with a three-cylinder motor, which is air-cooled, and drives a two-bladed propeller. The pilot seat is in a skiff-like body behind the wings.

EXPECTING A BIG VOTE AT PRIMARY

Interest in Democratic Mayoralty Race Likely to Bring It Out.

SITUATION DOES NOT CLEAR AWAY

Outcome Still an Unsolved Puzzle and Everybody Clings to Hope.

With the nominating primary but little more than thirty-six hours away, the race for the leadership on the democratic ticket is as puzzling a problem as it was before the four organizations representing Mr. Melching, Mr. Schmidt, Mr. McCulloch and Mr. Scherer got under way in the most vigorous campaign for the mayoralty nomination Fort Wayne ever saw. Adherents of each of the candidates are maintaining an invulnerable show of confidence, and each is claiming victory with all the exuberant buoyancy of sublime faith. Or, perhaps, it is nerve.

Upon any point, all seem to be fairly well agreed. That is the proposition that the vote at the primary promises to be a very large one. Dozens and dozens of meetings, noon and evening, have been held by the candidates and every section of the city has been invaded. Dozens of other meetings will yet be held in the few brief hours intervening before the opening of the primary polls. Reports from all of these have been to the effect that the attendance was large and that the crowds were apparently deeply interested, but aside from the declarations of the ward lieutenants, the voters as a rule diplomatically evaded committing themselves. In some instances this had led to the upbuilding of hopes that are likely to be rudely toppled over when the vote is counted Friday evening.

In many quarters it is declared that Mr. McCulloch has been making surprising gains during the past few days, and few guesses on the result fail to place him up among the strong probabilities, if not the actual winner. One of Mr. McCulloch's lieutenants declared today that the returns would show that quite as many members of organized labor would be found supporting Mr. McCulloch as were in the column of Mr. Scherer, who has the advantage of an official commendation by the central labor organization. The union labor men have framed up a splendid political organization for Mr. Scherer, and they are declaring that he will receive at least 1,200 union labor votes in the primary, and that on this account alone his nomination is certain.

But Mr. Melching has a lot of friends in the union labor ranks, also, and his lieutenants are confident he will share largely in the favor of the laboring man. Mr. Melching has been making comparatively little noise, but he has not been idle and he knows the political game from A to Z. He has behind him not only the advantage of a personal popularity, but the efforts of a lot of enthusiastic and devoted workers who have been directed by adroit political heads, and Mr. Melching's friends say he has gained ground steadily throughout the contest. Last night Mr. Melching had a big meeting in the Sixth ward, while Mr. Scherer had meetings in the Eighth and Tenth wards, and Mr. McCulloch and Mr. Schmidt were in the Spy Run district. The candidates are following each other about with meetings, and no section of the city has been overlooked in the dissemination of campaign oratory.

MAYOR CALLS WHOLE THING LARGELY BUNCOMBE

Says He is Told Blind Tigers are Not in Flaming Operation.

Declaring that investigations which he had ordered made had convinced him that there is not, in fact, a wholesale violation of the "blind tiger law" by the disreputable houses in Fort Wayne, Mayor Hoesy today pronounced the recent withering fire of the newspapers along this line largely "buncombe."

"Instead of there being fifty of these places operating under a government license," continued the mayor, "I find that there are just seven which have taken out the federal permit, and all of these are in the flats district. Reports which come to me, furthermore, are in favor of the fact that there is very little sale of liquor at all. It is done so cautiously that detection is extremely difficult." The mayor added that there had been neither new police orders issued in the matter, nor any relaxation of former orders against the operation of the blind tigers.

DANGER HUNTING THE HIPPO WAR IN SOUTH A NEW FRENCH INSPECT WORK ON

AMERICA CABINET GAS LINE

Shoots Cow While a Dozen Mammoth Animals At-tack His Boat.

Argentina and Bolivia are Completely Ruptured Diplomatically.

Three Members of Old Min-istry are Likely to Stay in Power.

Commissioners Find Little to Do at Session—Notes at Court House.

Naivasha, British East Africa, July 21.—Colonel Roosevelt had an exciting experience yesterday while endeavoring to secure a cow hippopotamus. At 9 o'clock in the morning he went out on Lake Naivasha in a rowboat accompanied by two natives. After rowing out some distance from shore the boat was surrounded by a dozen hippopotami, who attacked the boat, some of them diving under and striking the bottom of it with their backs. The natives became terrorized, but Mr. Roosevelt was not dismayed and, selecting the largest cow, he shot it dead. Eventually the rest of the animals were driven off. Mr. Roosevelt arrived at camp at 3 o'clock this morning after bringing home the spoil with a launch which was sent out to search for the row boat. Kermi Roosevelt has arrived at Naivasha, but the rest of the company will not reach here until tomorrow. Edmund Heller, of Riverside, Cal., the biologist of the Roosevelt expedition, caught a 130-pound leopard in a wire trap, while out shooting this morning.

La Paz, Bolivia, July 21.—Official circles now admit that a complete rupture has occurred between Bolivia and the Argentine Republic and that all diplomatic relations have been severed between the two countries. The recall of the Argentine minister, Senor Fonseca, who has been stationed here throughout the disorderly events leading up to the present crisis, was followed immediately and almost simultaneously with the recall of the Bolivian minister stationed at Buenos Ayres. On the departure of the Bolivian minister from Argentina, he has been ordered to turn over the archives to the American, Chilean or Brazilian legation.

Announcement Made of Rupture.

The rupture of diplomatic relations was announced after extended official conferences held throughout yesterday, at which efforts were made to meet the aggressive attitude assumed by Argentina and at the same time allay the growing agitation in Bolivia. The spirit of the people was shown in monster petitions asking to be enrolled to the government cause in case of an armed conflict. The feeling that hostilities may occur is shown by the continued departure of many Argentine and Peruvian residents.

Cause of the Break.

The cause of Argentina's breaking off of diplomatic relations, as stated here, was a circular issued by President Monto to the provincial governors of Bolivia, referring to Argentina's decision against Bolivia in the pending Peru-Bolivia boundary dispute. Argentina also takes offense at President Monto's order to the municipality of La Paz to suspend the centenary feasts which have been going on, in view of Argentina's adverse action which is regarded as a national misfortune. These two steps by President Monto are construed by Argentina as incompatible with a dignified continuance of friendly diplomatic relations. The recall of their minister thereupon followed, and this in turn was followed by the recall of the Bolivian minister at Buenos Ayres.

Paris, July 21.—The work of forming a new ministry to take the place of the Clemenceau regime which came to a sudden end last night, was begun early today. President Faillieres was visited at an early hour by the retiring premier, M. Clemenceau, and later conferences were held between the president and M. Brisson, president of the chamber of deputies, and M. Dubost, president of the senate.

It is now assumed that three members of the old cabinet would be retained in the reconstructed ministry, but aside from the question of personnel, the government advisers are principally concerned in re-solidifying the republican "bloc" in order that its policies may be continued both at home and abroad. It is generally believed that if M. Bourgeois, former minister of foreign affairs, can be induced to accept the task of forming a new ministry, a speedy solution of the crisis can be reached.

An Unprofitable Delight.

The members of right, which includes the royalists and the Catholic element, are intensely pleased with the overthrow of M. Clemenceau, but they are not likely to profit greatly by the present situation. Aside from M. Bourgeois, the only possible combination having more conservative tendencies which has a chance of succeeding is one with M. Poincare as chief and M. Delcasse as minister of marine. This combination results chiefly from the prominence M. Delcasse took in the events leading up to Clemenceau's downfall, when Delcasse hotly rebuffed to Clemenceau "slightings" allusions to the French humiliations in the Morocco controversy.

The element favoring extreme protection is pressing for the choice of M. Miller, and as premier, recalling his activity, while former minister of commerce, in behalf of the protective industries of France.

Czar's Coming May Embarrass.

The approaching visit of the czar to Cherbourg renders an immediate solution of the crisis imperative, as President Faillieres cannot take the members of the retiring cabinet with him to Cherbourg at the time the official greeting of France is extended to the Russian ruler.

The circles close to affairs at the Elysee palace expect President Faillieres to make a telegraphic offer of the premiership to M. Bourgeois who is now at Berne, Switzerland, where he is presiding over the international congress of sociology.

The board of county commissioners this afternoon went out on a tour of inspection along the gas line which follows the highway between this city and Bluffton, to see that the work of filling the trenches and repairing the roadway has been done according to agreement.

There was complaint some time ago to the effect that the Indiana Lighting company men had allowed trenches to remain open a greater length of time than usual, and that they had not been properly filled. Foreman of the company now says this work has been finished satisfactorily. There was practically no business before the commissioners at the morning session.

About the Court House.

Bond has been filed in the circuit court for the appeal of the case of Roswell O. Johnson vs. Christian Amacher and Ira Wagner, sent from Adams county and tried at the April term of court. The case resulted in a finding for the plaintiff, and it will now go to the supreme court.

Deputy Auditor Cal Brown is now completing the semi-annual distribution of the general tuition fund. It amounts to a total of \$11,762.23 and is apportioned to the various school corporations of the county on a per capita basis. There are 25,906 persons of school age in Allen county.

Mrs. Clara Roller, of Baker and Harrison streets, was fined \$1 and costs yesterday in Justice Henry Graber's court on the charge of assault and battery, preferred against her by Mrs. Essie Bollenbaw.

James Greenville Hesketh, a native of Wales, has made his declaration of citizenship before County Clerk Mason.

The last will of Christina Grothaus has been filed for probate. The testatrix makes a bequest of \$50 for memorial mass, \$50 toward the new altar for St. Mary's Catholic church, \$100 to Mary K. Grothaus and the balance of the estate to children and grandchildren.

Sheriff Reichelderfer has been notified that Mrs. Ralph Bump has recovered sufficiently to permit her removal from the Lutheran hospital and it is understood that friends are arranging to secure a bond that will be satisfactory to the state in order that Mrs. Bump may be taken to a new home at Roanoke until further action in her case is determined upon.

THE DEATHS.

FISHER.

After a three months' illness from a complication of diseases Paul Gerhard Fisher, a son of Rev. and Mrs. George J. Fisher, of Aurora, Ind., died Tuesday afternoon at 4 o'clock at the Lutheran hospital. He had been a student at Concordia college for several years and was removed to the hospital from that institution. The deceased was 16 years of age and was a grandson of Rev. Stubbins, well known as a Lutheran minister. The parents and one sister survive.

Funeral services Saturday afternoon at 2 o'clock from the residence of U. S. Huffman, 610 Riverside avenue, an uncle of the deceased.

SMITH.

Armada Smith, the 3-year-old daughter of Mr. and Mrs. Robert Smith, living at 623 Packard avenue, died at her home Tuesday afternoon after an eight days' sickness. The father is a varnisher at the Packard Organ works.

The remains were shipped to Shelbyville, Ind., today for burial tomorrow morning.

EXPECTING A BIG VOTE AT PRIMARY

No man ever had a more steadfast following than that which constitutes the Schmidt forces, and it is a big element in the present campaign. From the first Mr. Schmidt has been regarded as a possible winner and his campaign has been indefatigably conducted. Mr. Schmidt's long career in the city hall has given him a grasp of municipal affairs that he is using with telling effect in his addresses. Mr. Schmidt, too, is one of the readiest talkers in the circle of municipal politics, and he has never lowered his speed for a minute in the present struggle. Mr. Schmidt's friends are quite as emphatic in their claims of victory as are those of the other candidates, and in the face of the fact that guessers are all at sea on the result, the Schmidt claims are probably entitled to as high a rating as are those of any of the other aspirants.

Stimmed down to the present moment, the politicians who are not actively tied up with either of the majorly booms and haven't any particular preference in the matter, are of the opinion that nobody is skilled enough to pick the winner at this juncture. They have been expecting some sort of a shaping of affairs and an alignment of strength that would make the guessing less hazardous, but most of them now believe the primary will open Friday morning at 8 o'clock with the race so close that it will be an impossibility to pick the winner until the votes are counted.

Meanwhile a lot of industrious gentlemen who are aspirants for nomination to the clerkship, to the bench of the city court and to the councilmanic places are having a rather difficult time to avoid being overlooked in the trend of popular attention which has been engulged by the mayoralty race. These candidates have for the most part kept diplomatically out of the way of the cars in the majority fight, but have overlooked no opportunity to say a good word for themselves while maintaining a discreet neutrality as to the mayor's place.

Mr. Grice and Mr. Skelton, who are contending for the republican nomination for mayor, have done a lot of aggressive campaigning, and in political gossip the opinion obtains that Judge Skelton will have to "go some" to beat Mr. Grice. Judge Skelton's friends say that is precisely what he is going to do.

The board of election commissioners, composed of City Clerk Mungovan, H. C. Underwood and L. J. Hargrett, is now in session daily arranging details for the primary on Friday. The voting machines are being moved into the voting places and ballots will be attached and the machines set ready for receiving the vote by the commissioners.

Mr. Scherer is the only one of the democratic aspirants for the mayoralty who has opened up regular headquarters. Mr. Scherer's campaign is now being directed from rooms on the second floor of 125 East Main street.

GENTRY SHOWS COMING.

Famous Dog and Pony Exhibit With Much Added to Be Here Soon.

After an absence of several years, Gentry Brothers' Famous Shows, the recognized showmen of trained animal shows in America, will return to Fort Wayne Wednesday, July 28, when they will give two exhibitions, one at 2 o'clock in the afternoon and the other at 8:15 o'clock in the evening.

In addition to the educated animal thespians Gentry Brothers' Shows present death-defying aerial acts, clowns who are comedians, the famous Miami troupe of Japanese acrobats, and other features seldom seen in a tented exhibition.

Two hundred head of horses and ponies, scores of dogs, cats and monkeys, a herd of musical elephants, camels, zebras, baboons and dozens of other kinds of animals are the four-footed thespians.

There are monkey dishwashers, monkey barbers, clown dogs, a monkey train crew which operates a real steam engine and train of cars, the only company of monkey fire-fighters in the world, the famous Snyder family, Mr. and Mrs. and the baby, marvelous performing ponies, Darktown and his "Klunkin' Mule Maud" and a monkey theater.

Every pony is fat, sleek and an aristocrat. Every dog is well-groomed and cared for and all the animals delight in being in the ring, under the scrutiny of thousands of eyes.

The formal entrance of the big show into this city will be at 10:30 o'clock Wednesday morning when the mile long parade will unwind itself from the exhibition grounds and make its way through the downtown streets. There is no side show of freaks connected with the Gentry Brothers' Famous Shows, but in accordance with a time honored custom of circuses an after show or concert is given after the conclusion of the main performance.

It is announced that for the engagement in Fort Wayne the price of admission will be reduced to 25c for all.

The annual picnic of the congregation and Sunday school of Grace Reformed church will be held in Swinney park tomorrow.

REPORT GOT AT WASHINGTON.

Washington, July 21.—A report received at the weather bureau from Galveston stated that at 10:20 this morning the gulf was high and rising and water in the western portion of the city was several feet deep. At that hour the barometer stood at 29.64 inches and was falling rapidly. The wind was from the northeast and blowing at a rate of 44 miles an hour, with a maximum from the northeast of 62 miles. The storm that is approaching the coast was first sighted last Saturday over the Caribbean sea.

LUCKEY.

The death of Jacob Luckey, who was fatally injured in being pinched between two lumber piles at the Dieterich lumber yard Tuesday morning, occurred at 4 o'clock in the afternoon at the hospital. The demise was due to internal injuries. Mr. Luckey was born in this city on January 7, 1849, residing here ever since. He was highly regarded among a wide circle of acquaintances who are deeply shocked by his untimely death.

The deceased was a member of the Church of the Precious Blood and also of the school society of that church. The widow, living at 1327 St. Mary's avenue, and two brothers and two sisters survive him. The latter are: Anthony Luckey, of South Bend; Frank Luckey, of Marshall, Mich.; Mrs. Nicholas Zuber, of this city, and Mrs. Philip Tremmel, of Jackson, Mich.

Funeral services Saturday morning at 8:30 o'clock from the residence, and at 9 o'clock from the Church of the Precious Blood.

INSTITUTES NOVEL FEATURE.

Beginning this evening, the Sentinel institutes a novel feature at Robinson park. Every evening during the park season hereafter seven copies of this paper will be sent to the park and they can be found in the refreshment room at the rear of the theater. Everybody is welcome to look over one of the papers and it is likely that a good many will take advantage of the opportunity.

UPRISING IN MADRID.

Madrid, July 21.—(Via Gadaoz, to the Portuguese frontier, July 21.)—Great excitement prevails in the Spanish capital. The population is clearly opposed to the Spanish-Moroccan war in Africa. There were several demonstrations in front of the war ministry today and much rioting in the streets, in which the women took a prominent part.

SHIELD IS ON DUTY THERE WITH FIFTY DEPUTIES.

Manager Evans, of the plants at Chester, W. Va., declares that the strike there has been broken and that several of the mills are running. The men are preparing for a mass meeting to be held this evening.

WORSER SITUATION AT BUTLER.

Butler, Pa., July 21.—Notwithstanding the agreement reached late last night not over one-fourth of the foreigners employed at the Standard Steel Car company's plant, returned to work today when the gates were opened. The men declared they had no definite assurance of increased wages within sixty or ninety days and gave as another reason the continued presence of the state constabulary. They also said they did not understand the agreement as ratified last night.

Rev. Father Bozewski, of the Polish Catholic church, who was instrumental in persuading the men to agree to the terms of the company is using his influence to have the men return to work. He believes all the foreigners will be at their places within a day or two.

Captain Pitcher, of troop B, state constabulary, left this morning with twenty-two men for New Castle in answer to the plea of the sheriff for help in restraining the striking tin plate workers there.

TROUBLE DID NOT APPEAR.

Pittsburg, July 21.—The expected trouble at the plant of the Pressed Steel Car company at McKee's Rocks following the refusal of the court to interfere in the strike upon application of the Public Defense association of Allegheny county, failed to materialize this morning and the only outward indication of a strike was the gathering of several thousand men, women and children at Indian Mound for a mass meeting and to have their pictures taken by the newspaper reporters.

Nearly 200 men went into the plant, about the same number as yesterday. The state constabulary continues to patrol the vicinity.

New building permits issued: L. O. Hall, to repair and remodel store, \$1,000; George Kluppel, repair dwelling, \$150; William Lepper, remodel dwelling, 1211 Rudisill avenue, \$1,100. The N. O. E. club, in camp at Barbee lake, is sending home shipments of fish and turtles as evidence of its piscatorial success.

Capt. W. F. Ranke and Lieut. W. C. Cleary are at Muncie today attending a reunion of veterans of the Spanish-American war.

CHICAGO LOST COMMUNICATION.

Chicago, July 21.—The Western Union Telegraph company here had no communication with Galveston at noon. All wires were reported lost. A barge at Galveston, it was said, ran

witness if Sutton was taking any action at that time to protect himself from Roelker.

"Lieutenant Roelker was expostulating with Lieutenant Sutton about putting his (Sutton's) revolver away, but besides that took no action," replied the witness.

Asked if there was any interval between the time someone said "My God, he has killed Roelker" and the time Sutton shot himself, as testified to by the witness, Lieutenant Bevan said it was only a few seconds.

"Are you positive that Lieutenant Sutton caused the revolver to be fired at the time he was shot?" inquired Major Leonard.

"Yes, I know that no one present was in contact with the revolver except Lieutenant Sutton," Lieutenant Bevan answered.

Arthur E. Birney, Lieutenant Adams' counsel, questioned the witness. The latter told of a conversation with Sutton about six weeks prior to his death in which Sutton said the life in the navy did not attract him and that some day he would shoot himself.

The witness said it was his impression that he heard six shots fired prior to the time Sutton fired the last shot which ended his life.

"Did you see Lieutenant Roelker lying on the ground near Sutton?" asked Mr. Davis.

"Yes."

Two Men Were on Sutton.

When he found Sutton there were two men on him, the witness said and his body was lying face downward. According to the sum of Lieutenant

Bevan's testimony the members of the group he saw about Sutton were Lieutenants Utley, Adams, Willing and Sergeant DeHart.

"Although you heard six shots Sutton left camp with two revolvers, when you reached him you still feared he might have some shots in the revolvers, so you attempted to hold him to the ground, is that right?" Mr. Davis asked.

"Yes," was the reply.

"Do you recall that Utley, or DeHart said anything to you why they were holding Sutton down?"

"No, I don't recall anything; they had been running some distance and were out of breath. We were all in the same condition."

Ordered Backing to Cease.

"I ordered Lieutenant Adams to desist from hitting Sutton, which he did immediately and stood back," added the witness. He could not tell which man it was that said "Sutton had killed Roelker."

The first time he saw a revolver after he reached Sutton was when he saw the flash of the shot in front of Sutton's head and Lieutenant Willing reached over and took the revolver from Sutton's hands, the witness said.

"Do you know what became of the revolver after that?" asked Mr. Davis.

"No, sir, I do not," replied Lieutenant Bevan.

NEW YORK LOST WIRES.

New York, July 21.—A telegram from Galveston received by the Western Union Telegraph company here early this morning before wire communication was lost said that the wind at that time was blowing sixty miles an hour; that three "bents" (sections) of the Galveston bridge had been blown down and that no trains were running between Galveston and the mainland. When the message was sent the water was beginning to come over the sea wall, but no damage was reported inside the city.

HURRICANE WARNINGS GIVEN.

New Orleans, July 21.—Hurricane warnings for East Texas were issued by the United States weather bureau today. Dr. J. M. Cline, in charge of this district, said the storm which had been central over the gulf for the last twenty-four hours had resulted in high winds in the southern portion of Texas reaching hurricane velocity along the coast wall.

GULF VERY STORMY.

Mobile, Ala., July 21.—Officers of vessels arriving here say that the weather on the gulf is very stormy and that the sea is mountains high off the Mobile bar. Vessels are unable to come in on account of the seas and have put back to weather it outside.

Battleship Fleet of the Atlantic Goes Into Annual Drills

THE CONNECTICUT (Flagship) ENTERING PROVINCE TOWN HARBOR. — THIS PHOTOGRAPH SHOWS THE NEW SKELTON MASTS. FROM THE FORT WAYNE SENTINEL.

Provincetown, Mass., July 21.—The first division of the Atlantic battleship fleet, under command of Rear Admiral Seaton Schroeder, which spent Sunday in Provincetown harbor to allow shore liberty to the men before going into actual service for the drills in Cape

Cod bay, left for the test grounds off the Wellfleet shore. The flagship Connecticut led the Vermont, the Kansas and the Louisiana out into the bay, where severe standardization tests will be held until Friday.

It was also a day of many trials and tests of the ships remaining in the

harbor, no visitors being allowed on board. It is a bit uncertain when the remaining battleships will proceed to sea, but it is expected that it will be on Wednesday. It is understood that all of the battleships will make the standardization tests before their return here on Friday.

The Minnesota is scheduled to go to Boston on Saturday and then proceed to Portsmouth for an extensive overhauling. The men will be assigned to other ships and another, as yet unnamed, will fill the Minnesota's place in the second division.

S.S.S. CURES OLD SORES

If an old sore existed simply because the flesh was diseased at that particular spot, it would be an easy matter to apply some remedy directly to the place that would kill the germs; or the diseased flesh might be removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and even return after being cut away, shows that back of them is a morbid cause which must be removed before a cure can result. Just as long as the pollution continues in the blood, the ulcer remains an open cesspool for the deposit of impurities which the circulation throws off. S.S.S. cures Old Sores by purifying the blood. It removes every trace of impurity and taint from the circulation, and thus completely does away with the cause. When S.S.S. has cleansed the blood, the sore begins to heal, and it is not a surface cure, but the healing process begins at the bottom; soon the discharge ceases, the inflammation leaves, and the place fills in with firm, healthy flesh. Under the purifying and tonic effects of S.S.S. the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be doubly benefited by its use. Book on Sores and Ulcers and any medical advice free to all who write.

SOLDIER KILLS HIS FIANCEE WHILE IN CUSTODY

Shocking Tragedy at Fort Leavenworth—Murderer Runs but is Taken.

Leavenworth, Kas., July 21.—Private Charles O'Neil, of the military garrison guard, shot down Miss Minnie Shurborn, his sweetheart, in the presence of several army officers and their wives in Grant avenue, at Fort Leavenworth, shortly before noon yesterday.

O'Neil was jealous of the girl and called at the home of Capt. Charles N. Murphy, where she was employed as a maid, just after reveille and tried to quarrel with her. O'Neil then came to Leavenworth and purchased a double action revolver and called on the girl the second time at Capt. Murphy's home. He displayed the weapon and told the girl he intended to kill her and himself with it.

The girl ran upstairs to her mistress's room and locked herself in while Mrs. Murphy telephoned for help. O'Neil was captured on Parade Ground.

O'Neil ran away before Lieut. Russell Hand, the officer of the day, arrived with soldiers. The man was captured on the western parade and taken to the front door of Capt. Murphy's home, while the girl was asked to step in the front to identify the prisoner. O'Neil had the revolver concealed and pulled it out unholstered, fired under Lieut. Hand's arm, and killed the girl.

He fired four times before the officers and soldiers could overpower him. Murphy escaped a bullet by dodging behind a door. O'Neil was rushed to the guardhouse and shortly after 1 o'clock was taken out with several petty prisoners to be shackled in the blacksmith shop. He broke away and reached the timber on Sheridan's drive. Soldiers and guards in the towers of the military prison tried to stop him with bullets, but failed.

A general call was sounded and within ten minutes a squadron of cavalry, mounted engineers, and two battalions of infantry were moving.

The cavalry rode out on a gallop and patrols were established on the west of Sheridan's drive to prevent his getting out to the north or west. The infantry formed in long skirmish order on the river bank and to the south of the city limits.

Beat Timber for Fugitive. O'Neil was cut off from getting off the reservation and soldiers started to beat the timber with instructions to shoot him if he resisted. After a hunt of five hours, when O'Neil saw that he could not stay in the timber, he started to sneak along the rifle range to gain Merrill lake. He was noticed by a trooper, who rode up quickly. O'Neil jumped into the lake and pretended to be trying to drown himself.

The soldier leveled a rifle, made him come out of the water, and marched him up McClellan avenue to the guardhouse as the recall was sounded. The soldiers came in on the double quick and cheered the capture of the slayer.

The soldiers showed much bitterness against O'Neil for the disgrace brought on the uniform. Miss Shurborn was 20 years old. She lived at Essex Junction, Vt., and came here with an officer's family from Fort Ethan Allen four months ago. The soldiers decided to pay her funeral expenses and will send the body back to her mother.

During our ten-day sale that began yesterday morning we will sell 80 dozen 25c wash four-in-hand ties at 75c.

WRIGHT SETS A NEW AEROPLANE MARK IN AMERICA

At Fort Myer Dayton Machine Stays in Air Hour and Twenty Minutes.

Washington, July 21.—Establishing a new record for aviation in America, Orville Wright, in the Wright aeroplane late yesterday at Fort Myer, made a spectacular flight of one hour, twenty minutes and forty-five seconds' duration.

The longest previous flight was of seventy-four minutes, made by Mr. Wright at Fort Myer last fall.

During the entire flight the machine was under perfect control, but several times appeared to the spectators to be on the point of diving forward. Several thousand persons were given an exhibition which included the most daring feats of aviation yet accomplished, and at its conclusion a mighty cheer went up from the throng in recognition of the achievement.

The machine traveled a distance of about seventy miles, it was estimated by Wilbur Wright, and at one time during the flight the height attained, between 200 and 250 feet, exceeded the highest point ever reached by a "heavier than air" machine on this continent.

The most wonderful part of the flight was the execution of three complete "figure eights," which required careful maneuvering in directing the machine.

Flight Thrills Spectators. There was not the slightest mishap during the flight, but there were moments when the crowd watched almost breathlessly, fearing the aviator was losing control of the bird-like machine.

A thrill passed through the spectators as the white flyer, apparently beginning to dive to the earth, would regain its equilibrium and speed onward around the oval above the parade grounds. After rounding the course half a hundred times the aviator directed the machine's course around the small double circles of a "figure 8." It was the first time this season and the second time during his career he has executed this maneuver.

To the amazement of the crowd the machine described a second 8 and then a third one, after which it was guided back to its former course of large ovals.

With the determination of making a longer flight than heretofore attempted, the Wrights ordered the aeroplane taken from its shed to the starting apparatus shortly after 5 o'clock. Three members of the cabinet, Secretary of the Navy Meyer, Attorney General Wickersham and Postmaster General Hitchcock, were on hand early to witness the expected flight.

Senators Kean and Elkins, the Costa Rican and Guatemalan ministers, the two Nicaraguan commissioners, Chief Signal Officer General Allen, and Surgeon General Torney, of the army, and Rear Admiral Hutch I. Cone, Lieut. Commander Proctor and Lieut. Sweet, of the navy, also were present.

Mishap Delays the Start. A slight mishap delayed the starting of the flight. Just after the heavy weight of the starting apparatus had been hoisted to the top of the derrick, the rope broke and the weight fell to the ground with a thud. No one was near enough to be injured.

There might have been a much longer delay had not two "sailors" in the crowd stepped forward and offered their services in splicing the broken ends together. They were Rear Admiral Cone and Lieutenant Commander Proctor. The admiral superintended the work and after the end pulley block had been moved about two feet the rope was again rigged, the weight drawn up and the line attached to the machine.

The machine finally was released

WM. J. FUHRMAN

For Twenty Years a Resident of the Sixth Ward,

A Candidate for the Council, Subject to the Democratic Primaries.

Mr. William J. Fuhrman, the well-known contractor and builder, has announced himself as a candidate and is making an active canvass for the nomination for councilman from the Sixth ward. Mr. Fuhrman is a representative citizen of the ward and has been a resident of the same for twenty years, always being an active participant in the affairs of the democratic party. He has been very successful in the management of his business and would give the same painstaking attention to the affairs of the city. He is one of the heavy taxpayers of his ward and would therefore be vitally interested in anything affecting the ward or city. In the fifteen years that he has been following the business of contracting he has erected many of Fort Wayne's largest buildings, one of the more recent being the magnificent Elks building on West Berry street. He was also the builder of the city's lighting plant and is most emphatically in favor of the city owning its own light plant both for street and residence lighting. The voters of the Sixth ward will make a wise choice in selecting Mr. Fuhrman to represent them in the council.

DO NOT FAIL TO VOTE.

Every citizen entitled to a vote in next Friday's primaries should go to the polls and express his choice. It is quite as much a duty to vote at a primary as at a final election. The voter may not always act with the best judgment at a primary. He may make mistakes. But there is no mistake greater than to suppose it is not worth while to take a citizen's part in a primary election.

Much of the mischief of politics could be cured by a more general participation of the electorate of the parties in the preliminary work of choosing public officials. Many a man unfit for office is supported by conscientious men, who recognize his shortcomings, merely because he has been put on the party ticket. The primaries offer every voter an opportunity to prevent the presentation of bad men for office. There the vote is secret, protected and sure to be counted.

A widespread interest in primary elections has great effect in taking politics out of the control of politicians, bosses and so-called "leaders." The more general the activity of the voters in a primary the more difficult it is for manipulators to control results. They can handle their following and the unattached element that is always ready to go into that pasture where grazing is best, but they cannot manage and very seldom can influence that element that is interested in politics by reason of good civic impulses, by an unselfish desire for good government and honest public service. As the strength of this element increases in the recorded vote the power of the politicians diminishes.

The primary, controlled by statute law and hedged about with all the safeguards that surround any other election, has taken away the delicate citizen's former excuse that "politics is dirty" and therefore he takes no part in the nomination of candidates.

Even if that were not true, it is much better to get a bit soiled in politics trying to improve government than to unprotestingly endure dirty government.

Fort Wayne should have a hearty reception for Prof. John Davey, the tree expert, who is to make a public address in the Commercial club rooms tonight. Prof. Davey is very widely known as the "father of tree surgery," and he will have some things to say to the people of Fort Wayne should know. For instance, he will doubtless point out some better method of preserving diseased trees than the shocking, almost criminal and certainly hideous mutilations that have been resorted to in this city. We should learn what to do for ailing trees as well as what trees to plant for shade, how to plant them and how to insure vigorous, healthy growth. It is to be hoped that Prof. Davey can arouse interest in trees to such a pitch here as will result in the employment of a forester by the city. Fort Wayne has an uncommon abundance of grand and beautiful trees, but should have more. A forester could do much for the beautification of the city in sections where it needs embellishment and, what is quite as important, look to the preservation of the trees we have.

It joins the credulity much to find 'The Honorable Sereno Elisha Payne' performing heroically in the role of a true supporter of the president and an unafraid and devoted friend of the people, but so it appears and so, grant it, may it truly be. As a standpatist and let-well-enough-alone, as a foreigner-pays-it and pity-the-poor-American-toller ultra protectionist, 'The Honorable Sereno Elisha' has for some time had John Dalzell and James Schoolcraft Sherman breathing hard; but now comes he forth with olive branches in his hands, on his head the bays. It looks a bit too good to be true and maybe after all it isn't.

Georgia statemanship has evolved the brilliant scheme of basing the distribution of school funds between white and colored schools of that commonwealth on a basis of the taxes paid. What any such procedure as that will do to the public schools for the education of negro children will be an almost fatal sufficiency. Georgia negroes pay but a small part of the taxes and to allot school funds by such a system will be practically to abolish schools for the colored youth. It may be that Georgia will derive profit from an illiterate negro class, but the contrary is quite likely to prove the case.

Our neighboring city of Bluffton, conceiving that blind tigers were fattening on the forbidden land employed a secret service man from out of town to come there and do a little under cover work. He succeeded very well. A raid directed against apartments above a poolroom conducted by a man more or less notorious in the community beat up a pair of tigers—blind one and another of the common or garden variety usually found in gambling dens. It was a pretty raid and a fruitful one.

And now it is charged that Francis J. Heney, the greatest of all the graft hunters in the country, is himself a sort of a grafter; that he has been drawing big sums annually from the government without giving any service in return. Well, it's worth quite a lot to make sure of having a man like Heney handy and under reservation. Some big boodling concern might try to hand him more money.

Don Carlos is dead and the fear is reasonable that his son and successor to the Carlisle pretensions will not understand quite so well as his lamented father how to let well enough alone. Don Jaime is youthful, perhaps peppery and disinclined to be merely a pretender. May want to start something.

The Persian ex-shah has some four hundred wives on his hands and the young shah has more need for nurses than for better halves. It would be a graveling come-down, but those wives have got to live. They'd better apply for nursery places and other palace jobs.

The Great Conciliator may be able to make Nels Aldrich yield something, but he can't make him like it. That's the point where conciliation is going to fail.

Revision downward may mean revision downward only some, but even a little wrested is perhaps worth more than a lot conceded.

But two days more in which four very sure things must resolve themselves into three disappointments and an opportunity.

FORTNER WILL COME BACK.

France Grants Extradition in Case of St. Louis Forger.

Paris, July 21.—The government today granted extradition papers in the case of Marion Dwight Fortner, alias William Wells, who was arrested in this city May 19 at the request of the American authorities charged with forgery. M. Dwight Fortner was a real estate operator of St. Louis and disappeared from that city last February. He is under indictment charging that he obtained \$11,500 by forgery.

Maurice Niezer, manager of the Elks' baseball team, has summoned his players for a game at Huntington Sunday. Mr. Niezer will not be in the city, and H. G. Hogan will be in charge of the team.

Members of Hillsdale commandery, Knights Templar, who came to the city today to attend the funeral services of William Fietz, were the guests of Fort Wayne commandery at luncheon at the Anthony hotel at noon today.

BOY AVIATOR FLIES OVER NEW YORK IN A SMALL BALLOON.

New York, July 21.—Frank W. Goodale, who has made two trips across the Hudson in the vicinity of Grant's Tomb and has come to be known as "the boy aeronaut," made a third trip, starting from his quarters in Palisade park, crossing the river at a height of 3,000 feet, and following the course of Broadway southward.

His dirigible balloon appeared to be in perfect control. On reaching Forty-

second street he described a circle over Longacre square at a height of about five hundred feet. Then he sailed back to New Jersey.

The young man was up for fifty minutes or from twenty minutes to nine to halfpast nine. While crossing the river he was some 3,000 feet in the air. He adopted this expedient because at lower levels the coolness of the river condenses the gas and pulls down the airship.

WHEAT YIELD OF 29 BUSHELS TO ACRE AT BADE'S

Receipts of New Article Today Show Yield to Vary Greatly.

The first receipts of new wheat today at the local millers show the yield to vary vastly at different points about the county. On the Baade farm along South Broadway twenty acres gave 590 bushels of wheat, or an average yield of 29 1/2 bushels to the acre. Off of twenty-three acres on H. Dehner's farm on the Illinois road situated along the Wayne and Abolt township line, but 400 bushels was obtained, making a yield of about 18 bushels to the acre. The reports of other farmers in the city who are not yet ready to deliver their wheat lead to the belief that 18 bushels will be a very good average yield for this season.

The millers think that from now on wheat will be coming into the city at a pretty good rate. The Tresselt mills received both the Baade and Dehner loads this morning while the Mayflower mills received a car of wheat from Argos. The price for new wheat is \$1.15 per bushel and for the old quality, \$1.20 per bushel.

Much Light Weight Wheat. The wheat this year has ripened unevenly and as a consequence there is an excessive percentage of light weight wheat. As there is only a limited outlet for the light weight article, dealers declare that the discount on such wheat may reach a serious basis. Warnings are being sent to the various elevators against handling of such wheat except at a risk of great loss.

The following schedule of discounts has been issued by one of the markets most largely used in this vicinity with notice that changes may be effected at any time:

	Grade Price.
60 lb. wheat.....	10
55 lb. wheat, discount.....	10
50 lb. wheat, discount.....	20
45 lb. wheat, discount.....	40
40 lb. wheat, discount.....	60
35 lb. wheat, discount.....	80
30 lb. wheat, discount.....	100
25 lb. wheat, discount.....	120
20 lb. wheat, discount.....	140
15 lb. wheat, discount.....	160
10 lb. wheat, discount.....	180
5 lb. wheat, discount.....	200
2 1/2 lb. wheat, discount.....	220

In addition to the weight discount schedule, shippers are warned against handling damp, musty, broken or otherwise damaged wheat, except at a discount of from five to twenty cents per bushel.

FINES TO FIVE FOR A MERRY FREE FOR ALL

Five Colored Folks Arrested But 17-Year-Old Girl is Freed—City Court.

Five fines of \$1.00 and costs each and an acquittal were handed out by Judge Skelton in the city court this morning to six colored folks who were arrested as the result of a merry and free-for-all mix-up on Chicago street Tuesday afternoon between 5 and 6 o'clock. James and Mark Walters and Mr. and Mrs. Pearl Gross were fined for assault and battery and James Williams, who was really the saving grace of the whole bunch, for carrying concealed weapons. Mrs. Luetia Walters, a sister-in-law of the Walters boys, who is but seventeen years old, was acquitted on a charge of public intoxication preferred by the brothers.

The testimonies were so intermingled and intermixed that they were almost unfaithful. Each charged the other with starting the fight that appears to have had its origin in the Kelly saloon when two of the men were shaking the dice box. The testimonies were all featured with tales of picking up rocks, drawing knives, pushing one another down and the snuffing of cocaine. The Walters boys are alleged to have attacked Gross after he was making for some stones, then Gross' wife came upon the scene. This morning she graphically described how she was handled. It was James Williams, however, who came up and separated the various parties but he got his fine today, too.

The Other Cases.

Mollie Jones and John Samson, picked up in a raid on Murray street by Sergeant Pappert and Officers Madden, Junk and Bunck early this morning were fined \$15 and costs apiece which was paid with the forfeiture of the bonds. Samson also got a suspended jail sentence.

William Briggs was supposed to be out of the city by 10 o'clock this morning if he needed the commands of the court as he was arrested by Officer Shaughnessy while vagrantly wandering over the streets.

Talbot Wilson, charged with neglecting his child, had his case continued until the 28th of this month. Meanwhile he is out under a \$100 bond.

Yesterday we began a ten-day sale that will be the most remarkable bargain event you have ever heard of at this time of the year.

BLUE JACKETS IN LONDON.

Men of Fleet Now in Thames Are Guests of the City.

London, July 21.—The blue jackets of the 150 war ships now in the Thames, who heretofore have filled the role of hosts, were guests of the city of London today. Twelve hundred of them marched through the principal thoroughfares and the crowds that lined the streets greeted them with unbounded enthusiasm.

After the parade the officers and men were tendered a luncheon at the Guild hall and subsequently enjoyed a vaudeville entertainment the first ever permitted at the Guild hall during the many centuries of its existence.

Just for Comparison

We have tried to make it clear that a city RATE for lighting or for water has no fixed relation to the COST of either.

That the City under its Municipal Ownership provides the plants for both, OUT OF TAXPAYERS' MONEY—YOUR money and OUR money.

That this money as our capital, would OTHERWISE YIELD US INTEREST and would one day COME BACK to us.

That these plants are PERISHABLE QUANTITIES and wear out at a certain average rate year by year.

That in ten to twenty years or so they have practically to be renewed. The original investment is wiped out.

That these plants have not only to be operated by a special set of men and officials—a city department—but they involve the city in additional general expenses, like the other departments.

That what is given out as a RATE for an arc lamp or a thousand gallons of water is a WHOLLY ARBITRARY FIGURE.

It is supposed to represent the OFFICIALS' GUESS at the probable cost of mere operating expenses.

In arc lighting of streets the \$53 per lamp guess for the current year is below the mark.

In water works operation the guess of ten cents a gallon resulted in over \$17,000 of surplus funds, according to the Controller.

The city that announces the lowest water rates for its municipal plant may have—through its larger FIXED and GENERAL expenses—the greatest REAL COST of water.

The only profitable comparison for Fort Wayne is between the COST of its water and that of water supplied to other cities by PRIVATE COMPANIES.

As to comparative quality of the water supplied it may safely be assumed, in most instances, that other cities are getting NO WORSE water.

With TOTAL EXPENSES figured at \$286,846 last year, the COST rate for Fort Wayne would evidently be OVER 33 CENTS as against present OPERATING EXPENSE rate of 10 cents.

Now our neighbor, Terre Haute, a city smaller by perhaps 10,000 people, enjoys water from a company at rates way below that 33 cents. In fact 30 CENTS is the maximum rate for the smaller users, with much lower rates for others.

There are not a lot of FIXED and GENERAL expenses besides to keep the city too poor to make provision for its own safety. For it has 600 ARC LIGHTS, with 33 DAY and 46 NIGHT POLICE.

Then there is Peoria, Ill., another of our class of cities, with some 6,000 less population and water supplied by a private water company at 20 CENTS a thousand gallons.

But that 20 CENTS covers ALL the cost.

Peoria is therefore in funds to guarantee safety with 988 STREET ARCS (not 430 as here) and yet afford 30 DAY POLICE and 52 night police.

THING THESE THINGS OVER. THEN THINK THEM OVER AGAIN.

IN THE CHURCHES

GNICS ARE HELD BY TWO SUNDAY SCHOOLS

Redeemer and Salem Church Members Enjoy Outing at the Parks.

The annual Sunday school picnic of the English Lutheran Church of the Redeemer and Salem Reformed church was held today and both were attended by hundreds of children, their parents and friends. The former outing took place at Swinney park and will continue this evening until 11 o'clock. Salem church celebration took place at Robison park. At both, basket lunches at noon and in the evening were enjoyed by the participants in the day's festivities.

At 10 o'clock the Salem church party left for Robison park, young and old entering heartily into the pleasure of the occasion. Dinner was served by the Sunday school, the members of the committee in charge of the picnic being the pastor, Rev. Edward Kielsmeier, Henry Koepf, the Sunday school superintendent, and the following teachers: Miss Mary Kettler, Miss Sarah Boerger, Misses Edith and Margaret Vogely, Misses Haberkorn, Miss Elizabeth Brinkman and Mrs. Robert Cowen. The various attractions at the park were liberally patronized. The picnicers will return this evening.

Redeemer church picnic opened at 1 o'clock this afternoon when the children assembled at the church and headed by the Citizens' band marched in procession to Swinney park. The ladies of the congregation were in charge of the refreshments and coffee and sandwiches were served. Ice cream stands and a candy booth were conducted by members of the committee in charge of the picnic. The ladies will serve refreshments this evening and a delightful outing is assured all who attend.

Plans are under way for the second annual Sunday school picnic of Wayne Street Methodist Episcopal church to be held at Swinney park Tuesday, August 10. The following committees have been appointed:

Committee on Preparing the Grounds—F. D. Stapleford, chairman; Eugene McLaughlin and Mrs. Rher's class.

Refreshments—Mrs. M. A. Mason, chairman; Mrs. Carrie Tinkham, Mrs. Letitia Rhine, C. A. Miller, Dr. M. A. Mason and A. S. Coverdale.

Baseball—Robert Vernon, chairman, assisted by Miss Auten's class.

General Sports—Rev. C. Claud Travis, chairman; Wallace E. Doud, Mr. O'Mara, Mr. Becker, Mrs. Eby and Miss Auten.

The Woman's Home Missionary society of Wayne street church will give a picnic at Robison park on Friday, August 6. The committee for same, however, has not as yet been appointed.

On Thursday evening, August 19, the Sunday school of St. John's Reformed church will give an ice cream social on the church lawn.

MISSIONARY SOCIETY MEETING.

Ladies of Wayne Street M. E. Church to Discuss Japan.

The regular monthly meeting of the Woman's Foreign Missionary society of Wayne Street Methodist Episcopal church will be held on Thursday afternoon, August 5, at the home of Mrs. J. P. Tinkham, 833 West Main street.

The hostess will be assisted by Mrs. Geo. Stoner, Mrs. Sunderland, Mrs. Rhine and Mrs. Carrie Tinkham. Mrs. J. P. Tinkham will lead the devotions. Following the roll call and transaction of business matters, the following program will be given:

Paper—"Japan, North and Central."—Mrs. Welch.

Music—"Schools of Japan"—Eva Tinkham.

Gleanings—"Schools of Japan"—Mrs. Walter Miller.

METHODIST CAMP MEETING.

Members of Fort Wayne District to Assemble at Bluffton.

The annual camp meeting of the Methodists of the Fort Wayne district will be formally opened tomorrow in the tabernacle at Bluffton, under the direction of Rev. Wilson T. Loring, pastor of the Free Methodist church.

WINS HER HEART.

Food That Helps Baby and the Family Pleases Mother.

Show a mother how to feed her baby so that it will be healthy, rosy and plump and grow up strong and sturdy and the mother's gratitude is everlasting.

A mother says: "Five weeks ago I weaned baby but could not get her to take any kind of food until I tried Grape-Nuts which she relished from the first, and on it she has plumped up and blossomed into a fat, chubby little girl."

"I feed Grape-Nuts to her regularly—use three packages a week for baby and my three-year-old boy alone, and I find that it regulates and keeps them nourished, strong and in good health all the time."

"Since feeding my children on Grape-Nuts I have used absolutely no medicine for either of them. Such food as this that does such wonders wins its way to a mother's heart. Please accept our thanks for the good your food has done in our family where we all eat it."

Children will grow up strong and healthy, or weak and puny according to the food they get.

Grape-Nuts is a complete and perfect food for adults and children, is made on scientific lines and this is easily proved by trial.

Wants College Girls to Patrol Every District in Greater City

Miss Edith Kendall Makes Suggestions for Improving Living Conditions in Metropolis—Spent Two Years in Canvassing One Section—Plans "Village Improvement Committees" to Take Up the Work in Various Sections.

Mrs. RICHARD ALDRICH

New York, July 20.—In the interest of improvement and for the purpose of compiling facts and figures which will aid in accomplishing this end, Miss Edith Kendall has just completed a house to house canvass of that section of the city commonly known as the Kip's Bay district. A slight idea of the magnitude of the undertaking is explained by the fact that it required the greater part of two years, saying nothing about the thirty-five miles of city streets that she had to walk over. Still Miss Kendall is more enthusiastic about the work now than when she started it.

"It is with the utmost confidence," said Miss Kendall, "that I recommend this kind of work to the women of our city. Let them organize in every district what might properly be called 'village improvement committees.' In this way each section of the city would be thoroughly cared for by its respective committee."

"Indeed it almost becomes a woman's duty to take up this work. Men are too busy these days. Any group of college girls composing such a committee and working together would find the task a most interesting one."

"The Woman's Municipal League is earnestly encouraging the work which Miss Kendall has taken up for the Kip's Bay branch of the league. Mrs. Richard Aldrich is president of the Woman's Municipal League and is personally interested in the undertaking, and desirous that it should be inaugurated throughout the city."

The Kip's Bay district is bounded by Fourteenth street on the south and Fifth street on the north, and from Lexington avenue east to the East river. The area is 440 acres. There are more than one hundred and fifty thousand persons living in this section—more than thirty-one thousand families. There are 564 saloons and only about thirty churches.

"One cannot escape noticing the saloons in the district," said Miss Kendall. "Their number alone makes

them conspicuous. I found some places where there was a saloon on each of the four corners. This is a violation of the law."

Miss Kendall explained that by means of the "village improvement committees" the whole city could be carefully inspected and a record of the needs of each respective district understood.

"Everybody ought to be interested in the particular section of the city in which she or he lives," continued Miss Kendall, "and there is so much to be learned about our city which really would make one feel proud of its history. Take the Kip's Bay section; how many living between Thirty-fifth and Thirty-seventh streets know that the history of the land on which they reside is recorded from the year 1635? Jacobus Kip, secretary of the Province of New Amsterdam, settled there in that year with his family on a one hundred and fifty acre farm and built a house with imported Holland bricks which bore the family coat of arms. It was after this Jacobus Kip that the district took its name."

"Stuyvesant park, at Sixteenth street and First avenue, which is also in this district, is the only four acres unbuild land of the seven hundred acres once owned by Peter Stuyvesant when he was fourth Governor of New Amsterdam."

"Students of city betterment, at home and abroad, have agreed that the old-fashioned village improvement society most nearly meets the needs of centralized population. Although naturally difficult to adapt to 15,000 a plan well suited to 500, still it can be done. The underlying principle is the same and remains the same, big enough to meet our human needs."

"The idea should be to get at least one member of each family interested in the improvement of his district, to love his village; we might say, to feel personally responsible for it. The result can but be the White City toward which we ever look with longing eyes."

In this city. He will leave for Bluffton this evening, but will return for the conduct of services here next Sunday.

The beginning of next week several hundred people will assemble for the camp meeting, a large number of the local congregation expecting to attend. Many of the people will go into camp near the tabernacle and a great week of religious activity is anticipated. Sunday, August 1, there will be no services at the local church, as that day will likely mark the close of the meeting in Bluffton.

Thursday evening at the prayer meeting at the Free Methodist church, the sermon for the occasion will be preached by Rev. Hall, of Greenville, Ill.

WEDNESDAY EVENING SERVICES

Pastoral Topics of Sermons to Be Delivered Tonight.

"The New Heaven and New Earth." Isaiah 65: 17-25 will be the topic of the sermon to be delivered by Rev. Dr. Frank M. Fox at the mid-week prayer meeting this evening at the Third Presbyterian church.

Prayer meeting will be held this evening at 7:45 o'clock at Westminster Presbyterian church.

There will be no prayer meeting held this evening at Grace Reformed church.

The second quarterly meeting of the conference year will be held this evening at St. Paul's Methodist Episcopal church, Rev. Dr. C. U. Wade presiding.

Rev. William P. Herron at the mid-week prayer service at Trinity Methodist Episcopal church this evening will preach on "The Manger Cradle."

to visit her sister, Mrs. William Schindler.

Rev. George Moorman, first assistant at the Cathedral, left yesterday for a visit with relatives in Chicago. He will also visit in Detroit before returning home and will be absent about three weeks.

The regular meeting of the Sunday school teachers of St. John's Reformed church will be held this evening for the explanation of the Sunday school lessons. Rev. John H. Bosch will preside.

The Young People's society of Christian Endeavor of the Church of God will give an ice cream social on the church lawn this evening. The proceeds of the affair will be devoted to the fund for the reseating of the church.

The young men of the Barnea Sunday school class of the First Methodist Episcopal church will give an ice cream social on the parsonage lawn tomorrow evening.

Under the auspices of the Sunday school and congregation of Trinity Methodist Episcopal church an ice cream social will be given on the church lawn Thursday evening. The attendance of all members and friends is desired.

St. Charles Borromeo society of St. Mary's Catholic church will give an ice cream social in the school hall this evening for the members of the congregation and friends.

The Home Missionary society of the First Methodist Episcopal church will hold a meeting tomorrow afternoon at the home of Mrs. W. J. Hunter, 522 West Superior street.

The Ladies' Aid society of Simpson Methodist Episcopal church will give an ice cream social Thursday evening at the home of Mrs. Crawford Griswold, 2513 South Calhoun street.

The regular monthly meeting of the Young People's society of Christian Endeavor of Salem Reformed church will be held at 7:30 o'clock Wednesday evening, July 28, in the church hall.

Work on St. John's Lutheran church, Lake township, is progressing nicely and the mason work is up to the roof. It is expected that the edifice will be completed about the first of October, after which plans will be made for its dedication.

Jeffersonville Pool Rooms Are Disputed.

Jeffersonville, Ind., July 21.—The pool rooms which have been in operation at the Jeffersonville ball park, just outside the limits of the city, for some time were closed yesterday, probably in anticipation of action toward that end by Governor Marshall. Constables who were sent to the park by Prosecutor Kopp found no one on duty but a watchman.

The pool rooms have been operated at different times on the Indiana side of the river since they were driven from Louisville by the authorities. Governor Marshall was expected to take action at any time, as complaint had been made from different sources for the last two weeks. Their operation did not attract much attention in Jeffersonville or the Indiana side, due to the fact that no Indiana men were permitted to play.

GET NO EXTRA PAY IN NAVY.

Officers Merely Traveling Not to Be Regarded as on Sea Duty.

Washington, July 21.—Naval officers who in being transferred from one station to another spend some time on transports are not entitled to the 10 per cent extra pay allowed for sea duty, according to a ruling just made by the comptroller of the treasury.

The question was raised in the case of Lieut. Victor S. Houston, U. S. N., who, detached from duty on his ship, was ordered to proceed by army transport from Cavite, Philippine Islands to Honolulu, between March 2 and April 6 last. Lieutenant Houston has been ordered limited to his regular pay during the time he was aboard the transport, being "just traveling."

Topic of Present Importance

Personal health is and should be one of the greatest considerations of life, and as so many local people are praising the new remedy, Root Juice, it is not surprising that so many of the afflicted people of this country are so eager to talk about it and get all of the information they can in relation to the many remarkable cures it has made and is making. It invariably proves a great and agreeable surprise to weak, nervous, dyspeptic, constipated people, for after using it for a short while the soothing, healing and tonic properties of the wonderful remedy removes irritated and sore conditions from the linings of the stomach, bowels and bladder, heals and strengthens the liver and kidneys to healthy action, resulting in a good appetite, food well digested, bowels regular, good, rich blood, free from rheumatic poison, and it soon nourishes and strengthens the whole nervous system. The people at the drug store are proud of the wonderful merits of Root Juice, and gladly tell all interested of much of the great good it is doing here. TEN YEARS OF SCALP ERUPTION

Tiny Pinhead Pimples Filled and Hurt Tremendously—Tried Everything in Vain—His Daughter's Scalp was Crusted—Both Found

SIMPLY SURPRISING CURE IN CUTICURA

"It is a great pleasure for me and I consider it a duty to inform you what Cuticura has done for me. About twelve years ago, I contracted an eruption of the scalp consisting of small pimples, about the size of a pinhead, which filled after a few days with pus and which hurt tremendously. I tried everything, but in vain. Finally, I washed my head with sulphur and applied a carbolic ointment. After a few days the pimples disappeared, only to come back again in a week. This I suffered for ten years and then I saw an advertisement in the paper of the wonderful cures by Cuticura. I bought a cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Pills and after three weeks I had used only half the Soap and Ointment and my head was as clean as ever before. After the first application it was simply surprising how it improved.

"My daughter used Cuticura Soap and Ointment for eczema on the scalp and after having used them three times her head was clear and the hair became as soft and fine as silk. Since then she uses nothing but Cuticura Soap for shampooing.

"In consequence of my having used Cuticura Soap for shampooing, I noticed that my hands which almost always were cracked from handling undressed wood, lime and stone, became white and velvety. Formerly I used glycerine, but one night's treatment with Cuticura Soap and Ointment does more for my hands than a week's treatment with glycerine. I hope all suffering people will at least try the Cuticura Remedies. Herman Becker, Field, Wis., November 9, 1908."

Millions of women throughout the world use Cuticura Soap and Ointment for eczema, rashes, itching, irritations, inflammations, chafings, pimples, blackheads, dandruff, dry skin and falling hair, sensitive, antiseptic cleansing, and for the toilet, bath and nursery.

Cuticura Remedies are sold throughout the world. Cuticura Soap and Ointment are sold in 10-cent cakes and 25-cent boxes. Cuticura Pills are sold in 25-cent boxes. Cuticura is a trademark. Write for free literature to J. C. Peltier, 117 West Wayne Street, Fort Wayne, Ind.

What 8,000,000 Women Want

You have no idea how much the women are doing to make this world a better place to live in. The historian of the future will peer over his specs and sagely observe that the woman's movement of 1909 was one of the great events in the world's history.

Woman's progress started in the literary clubs that met to read Browning and discuss Renaissance Art and other high-brow things. Now the club women are just about on the verge of bossing everything between the two seas.

Certainly, this is a matter you will enjoy looking into. Rheta Childs Dorr has written a splendid article on the subject. In

PLANS GO FORWARD ONE MORE STEP IN COUNCIL

City Legislature Does But Little Business in the Special Session.

Track elevation plans were moved forward another step in the meeting of the committee of the whole which preceded the special session of the city council Tuesday evening. The Calhoun street and Fairfield avenue crossing plans and estimates were given a favorable report and will now go to the council for final approval. The No. 2 resolution, providing for track elevation at Broadway, was also reported favorably and now goes back to the board of works for confirmation. City Engineer Randall was present and supplied the committee with detailed information which the members requested. Councilman Boeger was secretary of the committee session.

Special Council Session.
Vice President Johnson presided at the special session of the council, as he did in the conference of the committee of the whole. The ordinance appropriating \$17,000 to the electric light fund for the extension of both street and commercial lighting was passed.

The council also named two election inspectors to fill the places of two who could not serve. William Eggman was named to serve in the twentieth precinct in the place of Clem Junge, who is a candidate for councilman from the Seventh ward. L. C. Bobilya was appointed as inspector in the thirteenth precinct to serve in the place of Benjamin Bright, who is ill.

New Fireman Appointed.
The board of public safety at its meeting Tuesday evening appointed Nicholas J. Murphy a fireman at No. 3 engine house of the city fire department, succeeding John Luby, who resigned Saturday. The new appointee has been a machinist at the Wabash shops for a number of years.

SAYS CASH OFFER WAS TEST.
Chicagoan, Denying Bribery, Intimates He Was Investigating.

Youngstown, Ohio, July 21.—Andrew Neville, of Chicago, arrested here last night on a charge of attempting to bribe John Ryan, Sixth ward councilman, in connection with the passage of the \$110,000 Chestnut street opening bond ordinance and the Lake Erie and Eastern Railway franchise, declares he will not be convicted. He says his case will go to the grand jury, as he will waive examination.

"If an employee of the government, with full authority," Neville said, "goes to an office-holder and tries to bribe him he cannot be convicted of bribery, for he simply is testing the officer."

Rumors indicate that business men of Youngstown formed a pool to defray the expense of searching out crookedness in the council. One councilman declares he knows \$30,000 was raised and several detectives brought here.

PRIEST BEATS BISHOP IN SUIT.
Ruling Allows Father Murphy to Hold Services in Nebraska.

Seward, Neb., July 21.—Several weeks ago, Bishop Bonacum appeared before District Judge Dungan and secured a temporary order restraining Father Murphy from holding services in Ulysses or in any other Catholic diocese of Lincoln. The hearing came before Judge Dungan yesterday, and he not only refused to grant permanent injunction, but refused a supercedens bond. The decision permits Father Murphy to hold services at any place in the diocese. After the decision, and after receiving congratulations, he announced that next Sunday he will say mass in his old Ulysses church. The bishop will appeal to the supreme court.

How Money Is Wasted On 5-Cent Cans

When you get the right brand of Evaporated Milk, you are wasting one-third if you buy in 5-cent cans. Please read these facts and see.

Let us say at the start that every grocer has 5-cent cans of Van Camp's. They are just as large as the 5-cent cans of vastly inferior brands. And we sell more than of the 10-cent cans, because of mistaken ideas. So, we don't give these facts to attack competition. They are simply to show how to get the most for your money.

Six Ounces for 5 Cents

All makers give six ounces of Evaporated Milk for five cents.

It matters not how much the milk is reduced by evaporation. It may be reduced as much as Van Camp's, or only partly as much. All charge five cents for six ounces. So you get just as much of Van Camp's for five cents as you get of the poorest brands on the market. But you get but six ounces of any.

Sixteen Ounces, 10 Cents

In the 10-cent can of Van Camp's—the tall size—you get sixteen ounces of evaporated milk.

That means an even plant.

It means exactly one-third more for the money than you get in the 5-cent cans.

In Van Camp's you get 8 per cent of butter fat, about 28 per cent total solids. That is because we use rich, Holstein milk. And because we evaporate by far the larger part of the water.

If you put back the water which we take out, you get about three pints of very rich milk out of a 10-cent can.

And that rich milk will cost you, if you buy Van Camp's by the case, just about six cents per quart.

That's what you ought to pay.

But the same milk in 5-cent cans—even when bought by the case—costs you over eight cents per quart.

The Mistake Lies Here

You who buy 5-cent cans don't get the full good of Van Camp's.

You use it for coffee and cereals, perhaps. But you probably use raw milk in your cooking.

That is a great mistake.

Van Camp's is fully twice better for cooking than the average run of raw milk.

Raw milk always separates, for the butter fat rises and the solids fall. So raw milk used in cooking is rarely whole milk.

In Van Camp's you get the whole milk—all of the butter fat and all of the solids belonging to the richest milk.

If you will try Van Camp's in only one milk dish you will never use any other. Note the flavor, the richness you get from it.

Van Camp's is fine on the table, of course, but it is also fine in the kitchen. It has twice the worth of raw milk.

Another Mistake

Then some people think that evaporated milk doesn't keep when the can is opened.

It will keep if you get Van Camp's. In usual weather it keeps 24 hours and it keeps 48 hours or longer on ice.

Keep it in the can until you use it up, for the can won't hurt it any.

In the long run, what is best for you is also best for us. That's why we publish these facts.

Get the most for your money.

Buy the pint cans—the 10-cent cans. Then ask your grocer to quote you his discount by the case.

You save money by buying 48 cans at a time. And you save all of the trouble of buying from hand to mouth.

Van Camp's is fully twice better for cooking than the average run of raw milk.

NOTHING BUT EGGS IN THE STOGIE BASKET

Hammond Closes the Gates on Wheeling—A Nine to Nothing Score.

Wheeling, W. Va., July 21.—There was no more balm in Gilead than in the heart of Sahara for the Wheeling layout at the close of yesterday's joust. Hendricks' warriors backing the redoubtable Hammond in fine style, let not a solitary Stogie clasp hoof to the rubber. It was a fine game for a topside affair and from the visitors' standpoint a fitting and proper climax to the series.

Blount scored in the first on his single, Donahue's sacrifice, and Krebs' drop of Channell's third strike, little curly locks coming on the peg to first to catch Channell. Wheeling came close to a score in their half, Jewell being caught at the plate. Blount again scored in the third, a series of errors clearing the way. In the fifth a pair of runs came in and in the seventh the fifth counter was hung up. In the ninth four were fattered on a hit batsman, two singles and two doubles after two men were down. Score:

CATASTROPHE RUNS DOWN GIANTS IN FLAG RACE

Mighty Mathewson Breaks a Finger—Cardinals Win—National League.

New York, July 21.—New York's chances for the National League pennant received a serious setback yesterday afternoon, when in the seventh inning of the game with St. Louis "Christy" Mathewson, the team's star pitcher, broke the second finger of his left hand in striking a liner from Deleahanty's bat. Mathewson has been New York's one consistent winner this season and has not been defeated since May 21. He was pitching his fourth game.

Mathewson left the game immediately, and the surgeon who attended him reported that it would be at least two weeks before he could throw again. Manager McGraw was banking heavily on Mathewson in the series with Chicago, starting Thursday.

After Mathewson went out Crandall went in and held St. Louis even until the eleventh, when doubles by Phelps and Evans, the latter a former member of the local team, gave the Cardinals the game, 4 to 2. The Giants led the score on St. Louis in the sixth, when Saltee had a bad session. The score: R.H.E. St. Louis.....2 0 0 1 0 0 0 0-4 10 3 New York.....0 0 0 0 3 0 0 0-3 10 3

Batteries—Saltee and Phelps; Mathewson and Crandall. Two-base hits—Byrne, Phelps, Evans. Sacrifice hits—Saltee, Konechey. Sacrifice bunts—Stolen bases—Konechey, O'Hara (2). Hits—Off Mathewson, 5 in 4-1-3 innings; off Crandall, 2:25. Umpires—Kane and Ensign.

BROOKLYN, 6; CHICAGO, 5.

Brooklyn, N. Y., July 21.—An error by McGraw's catcher, who failed to rally in the ninth and tie the score, but redeemed himself with a timely single in the last half that brought Clement in with the winning run. The score: R.H.E. Brooklyn.....0 0 3 0 0 2 0 1-6 10 2 Chicago.....0 0 0 0 0 0 0 0-5 10 3

TONY FREMER WILL PLAY WITH THE SHAMROCKS NEXT SUNDAY.

"Mox" Wiedman, who will alternate with "Monte" Hoffer back of the bat, made a hit with the fans in the New Castle games. He has the ginger.

Dieterich will pitch the first game in the double-header with Van Wert at league park next Sunday. Quinlan or Robbins will work in the second engagement.

The Shamrocks are drawing the best crowds in the history of the fast semi-pro team.

Independent teams are urging Manager Mart Cleary to put out Saturday games at League park when the league team is on the road. They all like to come to Fort Wayne.

The players will work out at league park this evening, from 6 to 7:30.

BROOKLYN MAY GET "BAD BILL" DAHLEN

WILLIAM DAHLEN

New York, July 21.—It's true that the Boston National League club has asked waivers on Dahlen. "Bad Bill," if you please, who helped the Giants win some games at the Polo ground while some of us were still young.

That doesn't mean that Boston will let Dahlen go—providing all the clubs waive claim. It may be simply a "feeler," although, under the new rule, it's dangerous to indulge in that kind of pastime. Somebody may snap the player up. Suppose Brooklyn should decline to waive on Dahlen. "Bad Bill" would revert to the Brooklyn management at the regular fixed price for the transfer of a National League player, and Brooklyn would be in a position to make the very deal that "Charley" Ebbetts contemplated last winter, when he did his best to try to secure Dahlen as manager for his club.

If Dahlen was good enough to be a manager then, he is every bit as good now, and it is not improbable now that Brooklyn has that very idea in view. Boston they've kept the subject of making waivers very quiet, but like all such bits of news it leaked out, and it seems to be taken for granted that Dahlen and

Maybe Brooklyn'll get him.

TOTS TAKE HONORS IN A BURLESQUE CONTEST

South Bend Walloped to a Farewell—Games of the Central League.

Terra Haute, Ind., July 21.—Seventeen hits and Alberts' sixth run for Terra Haute's Benders being all but shut out, a bad throw by Brennan, an effort to catch a runner stealing second, being responsible for the two tallies made by South Bend. The game was one of the most farcical seen here this year. The score: R.H.E. South Bend.....0 0 0 0 0 2 0 0-2 7 6 Terra Haute.....3 0 2 1 0 0 4 16 17 7

SOCIETY

These are the days when people should get into the country in one way or another, if they possibly can. And as there are good roads and not much dust, most able bodied people can, even if they do not possess automobiles, horses and carriages or even so limited in purse as to be compelled to save street car fare. It isn't yet so far to get beyond city limits that the distance is too great for a comfortable walk. Try it. The roadsides are green, the bobolinks are singing and the air is sweet with perfume of elderberry, red clover and sweet marjoram, besides there are ox-eyed daisies, wild honeysuckle, yarrow and various other wild flowers to gather and make into bouquets for the porch at home. Yes, it will pay you to take a walk into the country. It is good for your body and will refresh your mind. It is more restful than a game of bridge or five-hundred and less nerve wearing.

Miss Gertrude Thompson, of East Creighton avenue, entertained the members of the W. W. T. K. club of young girls, at her home in East Creighton avenue, yesterday afternoon, and announced the engagement of her cousin, Miss Margaret Thompson, of Wauson, O., to Claude Quiggle, of Delta, O. Miss Thompson is a popular young lady who frequently visits her relatives here and as her parents are not living, it was natural that her engagement should be first announced in this city. Five-hundred was played during the afternoon and at a delicious supper covers were laid for twelve. The prizes won in the card game were donated to the honor guest.

Berry Muffins.
Cream together one-half cupful butter with one cupful sugar, add yolk of one egg well beaten, one cupful milk, then sift in two cupfuls flour, and four heaping teaspoonfuls baking powder, fold in the stiffly beaten white of egg and one cupful washed and picked huckleberries or raspberries. Bake in buttered and floured muffin pans till ready in hot oven.

Mushroom Soup.
Clean and chop five cupfuls mushrooms; cook in four cupfuls water till tender; then rub through a sieve. Melt five tablespoonfuls butter; add three heaping tablespoonfuls flour, gradually add five cupfuls white chicken stock; cook ten minutes; add mushroom mixture, one cupful cream, salt, pepper and celery salt to taste; reheat.

Natty Summer Blouse

(By Mrs. Jane Ford.)

6 SIZES 32 TO 42 BUST

The waist pictured here is one of the most comfortable and easily made of this season's models. While the design is unique, it is cut on practical lines and retains the fashionable tailored effect. The pattern for it may be secured in six sizes, and will fit women whose bust measure is between thirty-two and thirty-four inches.

To copy it for the average woman, three and five-eighths yards of goods twenty-four inches wide, or two and one-half yards of goods thirty-six inches in width will be required.

This style shirtwaist is becoming to the majority of the fair sex, and is particularly satisfactory for those past middle age who hesitate to adopt the average models.

The back fits snugly across the shoulders, and the fullness at the waist line is held in place by gathers.

Double tucks at either shoulder give fullness over the bust, which is generally required in order to make the matured figure appear to best advantage.

The side closing and single lapel are the special features of the garment, and offer opportunity for applying trimming in many pretty and becoming ways.

One of the simplest forms of decoration would be to edge the lapel and closing with a knife plaited frill of the same, or of a contrasting material to that of the waist. The width of the frill must depend upon the figure for which it is intended.

thoroughly enjoyed by Misses Sophie Brown, Ehrman, Catherine Franz, Lula and Laura Seibert, Mabel Shaw, Florence Bricker, Edith and Flora Buals, Katie Ellett, Louise Benaevic, Rodawall, Duffy, Witte, Bertha and Gertrude Diederhofer, Edith Robinson, Mary and Lydia Ellett, Grace Snider, Emma Bick, Burwick and Messrs. Loren and Howard Staples, Carl Franz, Pablo Faho, Frank and Lovell Cole, Will Wright, Arthur Lepper, Charles Ellett. Out of town guests were Miss Florence Bricker and Walter Morgan, of Cadillac, Mich., Vernon Shaw and Roy Kercheval, of Louisville, Ky., and Ralph Shaw, of Chicago.

A Country Party.
The home of Mr. and Mrs. Charles Muldoon, of Marion township, was the scene of a pleasant surprise party on July 14 when a company of friends, including neighborhood acquaintances and city ones as well, gathered in honor of Mr. Muldoon's birthday anniversary. Card playing and a luncheon were enjoyed by Mr. and Mrs. John Wyss, Mr. and Mrs. Henry Muldoon, Mr. and Mrs. Louis Sedelmeyer, Mr. and Mrs. Wm. Horman, Mr. and Mrs. Bert Klever, Mr. and Mrs. Elliott Muldoon, Mr. and Mrs. Fred Herber, Marcelles Rauner, Mrs. Henry Auth, city, Mrs. Christ Klever, Mr. and Mrs. Sebastian Klever, Isadore Rauner, Mr. and Mrs. Frank Welgrand, Mr. and Mrs. Hugh Rauner, Mr. and Mrs. Albert Rauner and Miss Frona Auth, all

IN THE THEATERS

ONE ACT MISSING; TWO ADDED.
Characteristically Liberal Policy at the Majestic Airdome.

The illness of one of the members of the company made it impossible for the Lafayette Lamont number to appear at the Majestic airdome this week, and the airdome management with characteristic determination to give patrons a liberal return for their money, promptly secured two additional acts to supply the vacancy.

Carberry and Stanton, comedians with a song and dance number, and Douglas and Douglas, acrobats, made their initial appearance last evening, supplementing the airdome bill and bringing the program up to seven big acts. The airdome show this week is now one of the very best of the season, and it will delight two big audiences nightly at 8 and 9:15 o'clock.

Engaged for Stock Company.
Manager Rice, of the Majestic has engaged four members of previous players of Our Own stock company for the coming season. They are Miss Dunbar, Mr. Preston, Mr. Belkert and Mr. Jones.

Mr. and Mrs. Wright Huntington and Miss Gillingwater will play in the Huntington stock company at Terre Haute the coming season.

AT THE LYRIC.

The Spook Minstrels now playing at the Lyric are proving one of the most popular novelties ever presented in this city. In addition to the minstrel show each program of the week will embrace the customary high grade moving picture films, including the comedy, dramatic and descriptive features from the leading studios. Miss Amaretto will sing some of her descriptive and illustrated songs at every performance.

MAY BE LAST GLIDDEN TOUR.

Long Trips Are Too Great a Strain on the Contestants.

Fort Dodge, Iowa, July 21.—The Glidden tourists resumed their journey this morning with Council Bluffs the destination today, the run being 196 miles. The weather was ideal and the roads in fair condition. The prevailing sentiment among the contestants was that this would be the last Glidden tour. This belief is based principally on the fact that the runs are a hard strain on the contestants. Secretary Ferguson, who was injured yesterday by being thrown out of car No. 97, which was ditched by the breaking of the steering spindle, will complete the tour by rail, going on the special train. His injuries were not serious.

The Patterson-Fletcher store was a busy place yesterday. Fort Wayne people know what to expect when they have a sale.

Green Linen Boating Dress

This practical morning frock for the country is made with a separate skirt and blouse, for easy laundering and the sailor style makes it especially natty for rowing and canoeing when a costume smart and trim, yet loose enough to allow free movement of all the muscles is desired.

The dress is of light green linen with narrow stitched bands of white for trimming and a black silk necktie. The hat is a flexible panama banded with black ribbon.

WILL DELVE INTO SOCIOLOGY.

Retail Clerks at Louisville Take Up Working Girls' State.

Louisville, Ky., July 21.—During the sessions of the fourteenth biennial convention of the Retail Clerks' International Protective Association, being held in this city, the delegates will delve into sociology to the extent of talking over means to better the environment of the working girl. It is planned to organize a working auxiliary to the organization with this project in mind.

The clerks selected their officers by referendum and the parliamentary question, before them is whether they have the right to choose at this convention a successor as international secretary to the late Max Morris of Denver. Several cities are competing for the next convention.

WALL WILL FILL COMING TO FORT WAYNE

THE BILL

Lakeside Folk Turn Down Flatly an Offer to Compromise.

Lakeside property owners, in a meeting held Tuesday evening at the Lakeside school, voted solidly against a proposition to compromise the matter of the collapsed retaining wall along the Maumee river, and empowered its committee to appear before the board of public works and insist upon the reconstruction of the wall and the completion of the work this fall. Sixty property-owners were present, and Chairman H. C. Underwood submitted the report which was approved.

The Herman Tapp Construction company made an offer to accept \$4,870.24 in settlement for its work, which it contends was constructed according to specifications, less \$500 with the stipulation that in the event the city sues and recovers judgment, the Lakeside folk are to refund the \$500. Discussion developed the fact that nothing less than a reconstructed wall will be satisfactory to Lakeside, and they will oppose all payment until this is done.

It was voted to make the Lakeside Improvement association permanent, with meetings on the third Monday of each month the year round, and officers were elected as follows: President, T. J. Logan; vice president, Henry Bullerman; secretary, Charles King; treasurer, L. P. Sharp.

Messrs. George Waldschmidt, G. W. Lindemuth and N. W. Bloom were named as a committee to prevent the unauthorized use of the Crescent avenue sewer by residents living east of that street.

Young Man Has Created a Sensation in Many Eastern Cities.

This city is soon to be visited by an individual who has created a sensation in many of the large eastern cities where he has recently been. So far it has been impossible to obtain particulars except to say that he has aroused the greatest enthusiasm in every city he has visited by the remarkable results that have been accomplished. New York, Newark, Jersey City, Philadelphia and Pittsburgh, where this young man has already spent considerable time, seem to have gone wild over the marvelous work and the newspapers have contained many columns of favorable notices.

It is said that soon after he arrives in a city he goes out among the poor and needy and often distributes money to those who are in actual want for clothes or food. This one thing alone has created for him a big reputation as a philanthropist and has brought him in a prominent light before the public.

Further details regarding this person will not be obtainable until he arrives in Fort Wayne early next week. From what can be learned, however, Fort Wayne will no doubt have reason to become as enthusiastic over the results that are likely to be accomplished as have these other cities where he has visited. One thing is certain, Fort Wayne people will await with interest the developments of the next few days.

A frightful odor comes from store cellars along Calhoun street. Dr. Metcalfe should suppress these cholera-breeding nuisances and insist on better sewerage.

Tony Kelker has one of the handsomest gardens in the city. Not a foot of it but is covered with choice shrubbery and flowers. Many people call to see his pretty place.

The Arion society gave a very pleasant picnic and saengerfest at the Tivoli garden yesterday. In the evening there was a fireworks display and music by the City band and the Arion chorists.

The Keklonga council of the National Union was instituted Saturday evening at Rathbone hall by Senate Deputy T. A. Ironmonger. This lodge is composed of general officers and clerks of the Pittsburgh, Fort Wayne and Chicago, St. Louis and Pacific, New York, Chicago and St. Louis, Lake Shore and Michigan Southern and Fort Wayne, Cincinnati and Louisville railroads.

When the Strodel brothers owned the Berry street building six or seven years ago they put a turtle in the cellar. Since that time the cellar has not been used, and is filled with debris of every kind. Saturday Fred Schumacher, who will open a saloon in the building, went into the cellar and was attacked by a huge turtle which had evidently inhabited the premises since the Strodel's left it. Fritz did not molest the turtle, but proposed to capture and keep it. How the turtle sustained life is a mystery.

BOWSER EXCURSION.

Provision Will Be Made to Take 1,500 to Winona.

S. F. Bowser was at Winona Lake yesterday and got the admission tickets for the annual excursion Friday of the Bowser Oil Tank works employees. This is the custom of the Bowser company to furnish their folks with a Winona ticket admitting them to the grounds and to all the privileges in the grounds except any regular entertainment that may be on in the big auditorium. Any excursionist wishing to attend such entertainment will have to pay 25 cents at the auditorium door, but as there is always a lively time with outdoor sports there are not many who would go to the regular entertainment even if it was free.

Mr. Bowser said that he is sorry that the excursion is set for the primary election day, but he had made arrangements with the Pennsylvania company along in the early winter, and at that time it was the only Friday they could give him in July or August anywhere near the time that they all ways had their excursion, which was generally the first or second Friday in August, at which time the date of the primary election was not thought of. But as the polls open at 8 o'clock and close at 8 o'clock in the evening, and as their last train leaves here at 8:45 and the first one gets back from the lake at about 7, there is no reason for any voter not voting.

The Bowser excursion will consist of all their employees and their families in the city, for which the Bowser company has provided two trains of twelve coaches each and they expect there will be about twelve or fourteen hundred people in the excursion.

The Bowser company always give their excursion on Friday, in which event the shop is closed Friday and Saturday so as to give their help three days' rest, which is greatly appreciated by the employees.

BACKED OFF AT DERAIL.

G. R. & I. Freight Has Slight Accident.

The Pennsylvania wreck car and crew was summoned to Avilla this morning to pick up a G. R. & I. caboose. The caboose was on the north-bound switch train and was backed off the derail at the Baltimore and Ohio crossing in such a manner that the engine of the train was unable to pull it back on the rails and the wreck crew was called.

INSPECT TRACTION LINES.

An inspection trip by a party of which T. D. Cuyler, J. J. Turner and A. M. Shoyer, of the Pennsylvania, were members, over the traction lines between Steubenville, O., and Beaver, Pa., has given color to the rumor that the Pennsylvania has in view the taking over of the property. The inspection party was the guest of the East Liverpool Traction and Light company, the present owners of the traction lines inspected.

NEW STATION AT PITTSBURG.

The Pennsylvania railroad has purchased of Henry C. Frick the old Cathedral site property, at Grant street and Fifth avenue, in Pittsburgh, and will erect thereon the most magnifi-

cent railway terminal buildings in the country. Plans for the building are now being drawn by an architect and as soon as they are finished and approved work upon the structure will be taken up. Passenger traffic on the Pennsylvania has increased to such an extent that the union station is inadequate and the office quarters are particularly short of the demand, clerks there being almost piled one upon another. The location of the proposed new station is nearer the business center of Pittsburgh than the old.

NEW TROLLEY PROJECTS.

Surveys have just been completed for two trolley lines, one from Gallipolis to Ironton on the Ohio shore of the Ohio river and one from Point Pleasant to Huntington, on the West Virginia side of the river. It is said that one company is back of both projects and that the intention is to join with the Chesapeake and Ohio steam road in the construction of a bridge over the river at Huntington. The Gallipolis-Huntington line will be 60 miles long and the Huntington-Point Pleasant line will be 44 miles long. Each will open a rich mineral territory, and will be designed more for freight than passenger traffic.

VANDALIA'S NEW ROUND HOUSE.

Land has been purchased at Terre Haute at a cost of \$95,000 for a fifty stall round house for the Vandalia company. The structure will be of pressed brick, steel and stone and with the ground will cost \$500,000. It is said this will be the largest round house in the middle west.

A. M. SHOYER WAS HERE.

General Supt. A. M. Shoyer, of the Pennsylvania, spent the forenoon in the city today, conferring with Supt. J. B. McKim and other officials on matters of business. He came in in his private car, No. 7502, at 3:30 o'clock this morning and left in the same manner at noon.

PASSENGER TRAIN DELAYED.

Nickel Plate passenger train No. 2, due here at 3 o'clock, did not get in yesterday afternoon until about 5 o'clock. The trouble was the derailment of a pair of wheels under one of the cars. The damage was insignificant.

MAN FATALITY BURNED.

Carries Flaming Gasoline Stove to Window to Save Building.

Marion, Ind., July 21.—Disregarding his danger, William Bish, 52 years old, of Matthews, was fatally burned yesterday afternoon while carrying a burning gasoline stove out of a room to save the building from catching fire.

Bish lived alone in a room on the second floor of the building, and when he applied a match to a leaking gasoline stove it was in flames in an instant. He seized the stove in his arms and ran to a window, from which he threw the stove. As he carried the stove the flames set fire to his clothing, searing his face and burning his flesh to a crisp in places. Physicians believe he will die.

His screams brought assistance and the flames were extinguished. He has been a blacksmith in Matthews for several years.

TO PALE, THIN PEOPLE.

Druggists Meyer Bros. Co. Offer to Pay for Samose if it Does Not Make Thin People Fat.

Samose, the remarkable flesh forming food should be used by all who are pale, weak and thin. It mingles with the food and aids assimilation, so that when taken for a short time, Nature will soon assert her normal powers, and the food that is eaten will give strength and good flesh.

Weigh yourself before you commence the use of Samose, and you will notice a steady gain. Samose is a scientific flesh-forming food that restores the thin and scrawny to their proper weight, and fills the weak and debilitated with vigor and vitality.

The woman who longs for rosy cheeks and the plumpness of beauty should use Samose. The man who wants to be strong and well and gain health and good flesh, will find his desires accomplished by Samose.

Such remarkable results have followed the use of Samose that Druggists Meyer Bros. Co. are willing to pay for the treatment if it does not give the desired results. They make this offer generally and want all who are thin, weak and out of health to get a box of Samose from them on those terms. Sent postpaid on receipt of price, 50c. For sale by Meyer Bros. Co.

PROGRESS OF SUFFRAGE.

Colorado Women May Send One of Own Sex to Congress.

Denver, Colo., July 21.—The women of Colorado are to make an effort to send one of their sex to congress two years hence. Such was the announcement made to the visiting delegates from the International Council of Women by one who spoke for the woman's associations in the state.

"Of course, it is difficult to tell whether we will be successful in our efforts or not," said Mrs. Harriet Wright, former member of the state legislature. But we are looking forward to landing a woman in the halls of congress and we certainly are going to make a determined trial."

All are agreed that Mrs. Sarah Platte Decker is to be the candidate and that a move toward preliminary education of the voters must be made soon.

A great many dozen of our celebrated Silver Collars were sold this morning at 7c each. This is our way of advertising. We want every man in Fort Wayne to buy at least one Silver Collar during this sale. The man that wears one Silver Collar will buy no other. It's the only collar made with the linen-cord buttonhole.

SEAVEY'S UP-TO-DATE SHARDWARE STORE

To Please the Ladies

We have added to our line of HOUSE FURNISHINGS certain novelties which will prove "handy helpers" in any well managed kitchen. Among them "THE HANDY" FRUIT and VEGETABLE SLICER for slicing apples, pears, potatoes, carrots, radishes, beets, cucumbers, turnips, cabbage, celery, etc. No waste. Product cooks or dries quicker and more evenly. For dainty Saratoga Chips and attractive garnishings it is quite the thing. It is simple and durable and anybody can use it. Price only 25 cents. Then we have just the thing you were looking for—a FRENCH ALMOND GRATER to assist you in preparing that dainty cake and pastry. Ask to see it.

DO YOU MAKE YOUR OWN TIMBALES? You could do so if you had one of our popular TIMBALE IRONS. \$1.00 will buy one. WAFFLES are also toothsome morsels when made in our 85-cent WAFFLE IRONS.

If it's a good thing Seavey's have it
